ONE HUNDRED AND THIRTEEN MILLS OF ORGANS.—In numbering the organs of their manufacture, Mason & Hamlin have reached No. 150,000. Arranged in a line these would reach one hundred and thirteen miles, or would fence the railroad on one side from the Grand Central Station in New York, to within twenty miles of Springfield, Mass. Not only does this show the great popularity of American organs, but it illustrates what was declared by James Parton to be a general fact, that he who makes the best article in his line always has the greatest success. We understand that the Mason & Hamlin Company's new Upright Piano is now commanding a large sale, and is, in every way, up to the standard of their unrivalled organs. We predict a large success for this piano, which is constructed on a new system, said to be a decided advance over the prevailing wrist-pin system.—Boston Journal.

ADVICE TO MOTHERS.—MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once, it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes bright as a button. It is very pleasant to take, it soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.
