

presumed that nearly every one knows somebody who does not attend Sunday-school, and it is these somebodies that the school wants.

It is to be hoped that this committee holds experience meetings now and then to help one another on in the good way. If, for instance, John Jones has not been able to secure one new recruit, it may stimulate his zeal to hear that John Smith has gained three adherents to the cause, and especially it may help to learn how he did it! Let experience meetings be held by all means in all outlook committees.

By the way, why would it not be a good idea for the people of God generally to consider themselves members of such a committee? They need not wait to be appointed; they received their appointment from the Head of the Church, indeed, when they took her solemn vows upon themselves!

Oh, for an outlook committee, not only in every Sunday-school, but in every church of the living God!—Sunday-school Journal.

### Intensive Farming.

The farming of the "home acre," in our husbandry for God, is pressing to the front. No plans for church-work are symmetrical that do not recognize the

paramount value of the training of children. We have had to shelve, as disappointingly inadequate, a great many promising temporary expedients for supplying needed Christian workers, and for making up lamentable deficits in missionary treasures, etc., and face the alternative of training up from the cradle a generation which should never know anything but active work for Christ and liberal giving to his cause.

The church has never attempted to farm too extensively in the lines of evangelistic work or missionary enterprises, but she has sometimes lost sight of the fact that one child, whose prenatal influences had been heavenly, and who had been nurtured in Christian experience from birth, ought to be worth half a dozen reformed drunkards or converted heathen, without any disparagement of the miracles of grace which are wrought in the latter.

The annual Children's Day which is now being observed in the churches, together with the Sunday-school, the Junior Endeavour Society, and the Christian fireside, are our tools for cultivating the most fertile part of the church's "home acre." The more efficient our intensive farming, the better prepared shall we be for successful and wider extensive farming.—C. E. World.

No school stands still.
