

IT'S A SURE THING!

SHE HAS A

MARLIN 30-30 SMOKELESS

Her
barrel

is made of our "Special
Smokeless Steel," well
rifled on the old Ballard system.

It shoots true and hits hard.

Her cartridges, loaded with 33 grains of
smokeless powder, give 2,000 feet per second
velocity; her bullets, soft-nosed and flat-
pointed, make a wicked wound. The **Side-
Ejecting Action** won't hit her in the face
when she pumps in the second shot, and no
smoke will obstruct her vision across the
Solid Top.

Why don't you write for the 106-page Sportsman's Guide (just
out)? Tells about powders, black and smokeless; the right sizes,
quantities, how to load; hundreds of styles of bullets, lead, alloyed,
jacketed, soft-nosed, mushroom, etc.; trajectories, velocities, pene-
trations of all calibres from 22 to 45; how to care for arms and 1,000
other things. **Free** if you will send stamps for postage to
