FREE We will furnish employment to all out of work. Samples and instructions free. Send Postal to Box 1758, Montreal, Que.

THE BALD HEAD'S FRIEND.

CARBOLINE!

A Doctorized Extract of Petroleum as now improved and Perfected—is Absolutely the only Article that will restore Baldness. And Cures all Diseases of the Skin and Scalp.

What the World Has Seen Waiting for Centuries.

The greatest discovery of our day, so far as a large portion of humanity is concerned, is CARBOLINE, an article prepared from petroleum, and which effects a complete and radical cure in cases of baldness, or where the hair, owing to diseases of the scalp, has become thin and tends to fall out. It is also a speedy restorative, and while it has been chemically treated of hair, it also brings back the natural color and gives the most complete satisfaction in the using. The falling out of the hair, the accumulations of dandruff, and the premature change of color, are all diseases of a diseased condition of the scalp, and the glands which nourish the hair. To arrest these causes the article used must possess medicinal and chemical virtues, and the change must be made under the scalp to be of permanent and lasting benefit. Such an article is CARBOLINE, and like many other wonderful discoveries, it is the result of a long and arduous search. Petroleum oil is the article which is made to work such extraordinary results, but it is not the oil itself, but the manner in which it is prepared that is in proper condition for the purpose. It was in far-off Russia that the effect of petroleum upon the hair was first observed, and the secret was kept for many years. A partially bald-headed servant of his, when trimming the lamps, had a habit of wiping his oil-bearded hands in his sunny locks, and the result was a complete and permanent head of black, glossy hair than he ever had before. The oil was tried on horses and cattle that had lost their hair from the cattle plague, and the result was a complete and permanent recovery. The manes and even the tails of horses, which had fallen out, were completely restored in a few weeks. These experiments were heralded all over the world, but the knowledge was practically useless to the prematurely bald and gray, as no one in civilized society could tolerate the use of refined petroleum as a dressing for the hair. But the skill of one of our chemists has overcome the difficulty, and by a process known only to himself, he has, after very elaborate and costly experiments, succeeded in deodorizing petroleum, which renders it susceptible of being handled as daintily as the finest eau de cologne. The experiments made were attended with the most astonishing results. A few applications where the hair was thin and falling gave remarkable tone and color to the scalp, and the dandruff field of dandruff disappears on the first or second dressing, and the liquid, so searching in its nature, seems to penetrate to the roots and effect a complete change in the hair. It is well known that the most beautiful colors are made from petroleum, and by some mysterious operation of nature the use of CARBOLINE, and the effects given upon the hair, are permanent for an indefinite length of time. The hair which has been treated with the most intimate friends can scarcely detect its progress. In a word, it is the most wonderful discovery of the age, and well calculated to make the prematurely bald and gray rejoice. We advise our readers to give it a trial, feeling satisfied that one application will convince them of its wonderful effects.—Pittsburg Commercial of October 21, 1877.

THE GREAT AND ONLY Hair Restorative.

READ THE TESTIMONIALS. DAVISVILLE, CALIF., Nov. 8, 1878. CHAR. LANGLEY, C. & Co., San Francisco: Your hair restorative has effected a complete and permanent cure of my baldness. For more than 40 years I have been afflicted with baldness, and for the last 10 years I have been using your hair restorative. It has effected a complete and permanent cure of my baldness, and I have now a thick growth of hair, which I have never before enjoyed. I feel compelled to say a word in your praise, and to recommend your hair restorative to all who are afflicted with baldness. I have now used it less than a month, and to my most agreeable astonishment, my hair is completely covered with a fine, short, healthy growth of hair, which has every appearance of continued growth; and I confidently believe it will restore it as completely as ever it was in my youth. I take great pleasure in offering you this testimonial, and you have my permission to publish the same. Yours truly, CHAS. E. WHITE, Davisville, Cal.

Subscribed and sworn to before me this 8th day of November, 1878. JAMES D. KING, Notary Public. JOSEPH E. POND, Jr., Attorney at Law, North Allegheny, Pa., writes: For more than 40 years I have been afflicted with baldness, and for the last 10 years I have been using your hair restorative. TELEGRAMS.

SPAIN. Death of Princess Infanta Maria del Pilar. MADRID, August 5.—A despatch from Escorial announces the death of Infanta Maria del Pilar, second sister of King Alfonso. The deceased princess was born June 4th, 1861, so that at the time of her death she was 18 years of age. She has been suffering some days from cataplexy, complicated with nervous fever, and her life was considered in such danger, that her brother, the king, and elder sister, Infanta Isabel, were sent for from Lagranga, where they were sojourning, and they reached Escorial in time to be present at her death. The king, who has not yet recovered from the melancholy into which he was plunged by the loss of his wife, was greatly affected by the death of his sister, to whom he was much attached.

LONDON, August 5.—No political consequences of immediate importance are expected to arise from the death of the younger sister of the King of Spain, the news of which reached this capital this morning, but it is stated at the Spanish embassy that this additional bereavement will have a tendency to still further plunge the king into the melancholy which has afflicted him since the death of his wife, and will have the effect of indefinitely postponing the arrangements for his second marriage, which has now been in contemplation for some time. This postponement may have some remote consequences of considerable importance. The health of the young king is not good, and his tenure upon life is not strong; he is exposed, moreover, to a greater extent than is generally supposed to danger of assassination. It should be remembered his life has already been once attempted, and there are evidences that the secret associations which permeate all Europe, and which have, through their occult agencies, brought about successive attempts upon the lives of the Emperor William, the czar, the King of Italy, and the King of Spain, are fully resolved to keep up their work of intimidation. Should King Alfonso be carried off by disease or by the hand of an assassin before he again marries, and without leaving any heirs of his own issue to the throne, political complications of a serious character will eventually follow. The king's advisers have for some months past urged him constantly to contract another marriage, in order that these evils might be, if possible, averted, but the unfortunate death of his sister has postponed, if not altogether stopped, these designs. At the embassy to-day rumors concerning a disposition on the part of King Alfonso to abdicate the throne and retire to private life were in circulation by principal personages. At the embassy it was asserted that these reports had no foundation in fact.

THE ZULU WAR. Cetewayo will not Surrender—A Possible Defeat Feared by the British. LONDON, August 8.—A Cape Town despatch says the report that Cetewayo offered to surrender is not confirmed. The impression is he will give more trouble. Some newspaper correspondents in South Africa think it possible that Cetewayo may defeat the natives sent against him, in which event all the prestige gained by the success of the British forces will be lost. A military council will be held at Maritzburg, but it probably will be little more than a matter of form, as General Sir G. Wolseley—who is accused by the colonists of under-rating the enemy as much as Lord Chelmsford over-rated them—is evidently bent upon pursuing his own views. As to the reduction of the British forces in South Africa, besides the marines and naval brigade, six infantry and two cavalry regiments will be sent home. Some accounts say Chief Secocoeni in the north is not expected to surrender without fighting. A column of 5,000 men is prepared to march against him should he continue recalcitrant. Sir G. Wolseley did not inform the constabulary that they would be governed by the English, but told them that their country would be ruled by independent Zulu chiefs.

TURKEY. The Bulgarian Mutiny—The Serajevo Fire, 10,000 People Homeless. LONDON, August 8.—The Bulgarian cabinet's manifesto to the nation states that its intention is to maintain cordial relations with the powers, and secure peace and order. The fire in Serajevo was caused by an explosion. The Catholic, Serbian and Jewish districts and commercial quarters are destroyed. Thousands of buildings are burned, including the Catholic and Serbian churches. About 10,000 people are homeless. The damage is enormous, and the fire is still raging.

ST. PETERSBURG, August 8.—It is reported that, in consequence of the concentration of Turkish troops on the Roumelian frontier, Russia has protested to the powers.

BELGIS, August 8.—It is said that the Balkans will shortly be occupied by Turkish troops.

CONSTANTINOPLE, August 8.—Serbia has claimed from the ports two million francs as damage for the destruction of property by Albanian raids on the Serbian frontier. It is said that the ports has rejected the demand.

ENGLAND. Wolseley's Next Command. LONDON, August 8.—It is announced that General Sir G. Wolseley will be the next commander-in-chief of India.

GERMANY. Religious F. edom. ROME, August 8.—It is stated that the Vatican and Bismarck have agreed to observe scrupulous secrecy until the conclusions of the present treaties.

THE DISAFFECTED INDIANS. Descent of Nez Perce—spotted Tail Wants to Work. WASHINGTON, D.C., August 9.—The Indian agent at Flat Head Agency, Montana, reports that ten lodges of Nez Perce recently deserted to enter and live upon the Flat Head reservation. The agent agreed to receive them if they gave up their arms and horses, and surrendered as prisoners, subject to the further orders of the government. Eight Nez Perce following the above had been measured by a war party, supposed to be Gros Ventres.

The secretary of the interior has received a characteristic letter from the Indian chief spotted Tail, at Rosebud Agency, Dakota. The chief makes some complaint, and says, "I have had enough of the military. I want my people to work. I want no more scouting; I have had my belly full. We want to work the ground. Whenever the military are here there is always whiskey, and that makes trouble." The chief requests the secretary to visit the agency, and the latter promises to do so.

Arab Catholics.

A Catholic tribe of Arabs lives beyond the Jordan, and moves with its herds of horses and cattle from one pasture to another, like the ancient patriarchs of Israel. An Italian priest has been living with these simple herdsmen for a number of years, and whenever they change their abode he goes with them. A new camp being formed, a tent which would formerly remain on of the old tabernacle in the desert, is also set up, and serves for the chapel—not harboring, indeed, like that of old, the symbols of the Divine law, but the Divine Law given Himself, offered in the spotless sacrifice of the Mass. Whilst the grown up people tend their flocks, the good priest teaches the children their duty towards God and men. Every year, about the time of holy week, the Arabian tribe pitches its tents on the banks of the Jordan, and its pastor enters Jerusalem on horseback, dressed like a Redoubt warrior, armed cap-a-pie, as are also his followers, the chiefs of the tribe, for their Mohammedan neighbors, true children of Israel, are "still raising their hands against any one, whilst every one's hand is raised against them." During his stay in the Holy City, the missionary stops at "Aze Home" monastery, celebrates Holy Thursday and Good Friday with the fathers, receives the holy oils, and on Holy Saturday hastens back to his children in the wilderness, to celebrate with them the glorious festival of Easter. Rev. Father Heiver, of Notre Dame de Sion, now travelling through the United States on a charitable mission, in behalf of the orphans in the asylum at Jerusalem, under the care of the famous Ritschoune, who furnishes the interesting particulars, says these Arabs are excellent Catholics and a noble people.

The Pride of Canada!

Our citizens are proud, and justly so, of their benevolent institutions which are devoted to the physical, educational, moral and religious wants of the people. We spare no expense to render comfortable those who need our sympathy. Our hospitals and homes for the aged of both sexes abound throughout the Dominion, and every city gives proper attention to its aged and poor. It is simply an oversight of our humanity. But there are many who are comfortably circumstanced in worldly goods, who go through life the victims of diseases, nervousness, biliousness, dyspepsia and kindred diseases, which render them miserable, when by a little care to eat properly or a timely application of remedies, they might be removed. There are men with ample funds in their pockets to buy all the luxuries of life and yet have not digestion enough to put away comfortably an oyster. They are always complaining and doctored. The introduction of Dr. HENCK'S SCUM COATED PILLS has made an improvement in this matter. Their rapid and growing popularity has benefited our invalids. Their taste is agreeable, and their action rapid and remedial.

A CURE FOR DIPHTHERIA.—Mrs. Ellen
