THEN as to exclusiveness, you'll revel in the delights of the individuality shown, REAL authentic importations from Paris and American style centers the exclusive garment at that

Are Civil Servants Initiative Enough ?

—“I Have Heard Some Say They Are Not.”

I'VE decided to prove it myself by using their organ (The Civilian) for advertising purposes. I want to prove that civil servants are just as enthusiastic and just as quick to snap up a bargain as the next person, and that is why I am going to offer for this week only, this opportunity — what I believe to be one of the greatest in the proposed New Federal District.

COLE AVE. WEST. Brick Veneered House. \$1,000 Cash. Balance upon easy terms. Electric lights, good large, roomy home, all conveniences. This is a snap but if you dont want to go as high in price, I have others down as low as \$1,500. Come and see me at any rate if you want to buy a home.

I can please you.
