NOTE BY THE MANAGEMENT TO OUR ENGLISH SPEAKING FRIENDS.

Certain unforeseen preliminaries have been the cause of a three or four days' delay in publishing our prospective number. We are wholly responsible for such We had not anticipated any encouragement on the part of the advertising merchants and others for the initial issue of "Le Miroir." Messrs. Johns and Trotier will pard us this indiscreet allusion about their zealous work. Our advertising agents report they were encouragingly received.

We had intended, for the benefit of English speaking readers, who are the friends of young Canada at school, to say more than we can in this initial number as to our purpose regarding the work we have outlined for future issues of our pupil's "Le Miroir." all intents and purposes, it will be advantageous and profitable for merchants to mark tize in its columns and for young Canada to read both the English and French that will appear monthly in "Le Miroir." English-speaking parents and pupilism bear with us should not this prospective issue be more replets from their point of matter than the september number will be the first of our regular edition. Its English-French matter will be suitably arranged, so that the learner my find it come aratively easy to comprehend and make use of from the very begining.
