Senator Argue: Do we have to obtain royal assent this week? When do the cheques go out?

Mr. Cafik: It is important to the department, and to the Department of Supply and Services who have the responsibility for distributing these cheques, that we have royal assent as soon as possible. The mechanism is in place and work is going ahead on the presumption that the bill will be passed. Nothing can, in fact, be issued until royal assent is given. We are hopeful that if royal assent is received today we can ensure that all cheques are sent out for the current month.

Senator Argue: When are they normally dropped in the mail?
