General Sir Arthur W. Currie,
Principal,
McGill University,
Montreal, Canada.

My dear Sir Arthur:

I am very pleased to receive my notice of the Gest Chinese Research Library brought out by McGill University in so dignified and attractive a form. The value of this little publication is considerably enhanced by your Foreword which I profoundly appreciate and of which I am very proud. Please accept my very best thanks. Let us hope that your sympathetic message, as you say, will prove a real factor in the drawing together of East and West.

Yours very sincerely,

Berthold Laufer
