Principal,
McGill University.

Dear Sir Arthur Currie:

With reference to our conference this morning I have subsequently realised what at the moment may have escaped the attention of all present, namely that to ask Corporation to add the Physical Director for Women to the Committee of the Department, while according to the present constitution the Director of the Department and the Medical Officer are not, I understand, members of the Committee, would be I should conclude quite out of the question.

Attendance at meetings may possibly have been your intention, not membership.

I made a point of remarking that the proposal to add to the personnel of the Committee, if decided upon would not be made on my initiative. No one would wish to force a member on a committee against the strong feeling of its members. I was and am perfectly content to leave the matter in your hands for decision, since you will fully realise the importance of so adjusting matters as to obtain a sound basis of co-operation for the good of the work.

Yours sincerely,

Edith Harbath
