

45, CASTLE STREET,

EDINBURGH,

April 5th, 1865.

I have known Dr. MONTIZAMBERT during the whole period of his medical studies in Edinburgh, and am well acquainted with the distinction he attained in all his classes. Having been one of his Examiners for the Diploma of the Royal College of Surgeons, I can state as a fact that he made the most creditable appearance of all who were examined at the same period.

I am thoroughly convinced that he is well fitted to discharge efficiently the duties of the office for which he is now a candidate, and I am firmly satisfied he will prove an ornament to any Hospital with which he may become associated.

Dr. F. MONTIZAMBERT was known to me, during his residence in Edinburgh, as a zealous and successful student of medicine. He acquitted himself with honors at his examinations, and he gained prizes in the classes of Chemistry, Midwifery and Surgery. He acted as Clinical Clerk to Professor Syme, in the Hospital here. I have great pleasure in recommending him as a well qualified medical man, and as specially fitted for the duties connected with an Hospital.
