The Liverpool market closed %d lower on wheat, and ¼d to %d lower on corn. Holiday in continental exchanges (Ascension Day).

EXCEEDS DEMAND

ence.

today were 555,000 bushels, against 464, 000 last year.

Poor demand for American corn at Liverpool helped weaken this market. There were fitful rallies on buying spurts, but the general tone was heavy. Oats, after a firm start, weakende with other grain. Small hog receipts and a consequent upturn in prices at the yards helped provisions. Improved cash trade also aided values.

FLOUR PRODUCTION CATTLE MARKET TRADE DULL

Reports That Mills Are Soon Prices About Steady in All to Close a Bearish Influ-

CHICAGO. May 1 .- Reports that sev-

bearish factor, as did the reiteration of enthusiastic crop news from the domestic field. A little upturn after a weak opening occurred on account of the fact that 1,895,000 bushels of wheat delivered on May contracts had mainly gone into strong hands. On the swell there was considerable profit taking and a downward trend was already in evidence when the milling situation aggravated bearish conditions. Primary receipts of wheat today were 555,000 bushels, against 464,000 last year.

CHICAGO. May 1.—Reports that several large flour mills were soon to close because of poor trade weakened wheat today. Closing prices were %c to %c net lower. Corn had a net decline of %c to %c net lower. Corn had a net decline of %c to %c net lower. Corn had a net decline of %c to %c net lower. Corn had a net upturn of 2%c to 15c.

Advices that the closing down of several big northwestern flour mills was impending was coupled with more favorable news as to the European political situation. A prompt weakening of wheat values took place and the market closed near the low point of the day.

Reports Still Roseate.

Lower cables, based on favorable European crop news formed an additional bearish factor, as did the reiteration of enthusiastic crop news from the domestic field. A little upturn after a weak opening occurred on account of the fact the fact that the closing of the second process of the second process of live stock at the Union Tards were 41 cars, 391 cattle, 1948 hogs, 148 sheep and lambs, 75 calves and 2 horses.

Considering the light delivery of cattle it might have been an active market, but such was not the case. It was a slow market at about the same prices as on wednesday in almost every department excepting stockers and feeders, which were slower sale, the demand not being as good. Not nearly as many cattle were offered this as last week. If there had been a heavy run, prices would have declined like they did at Chicago, from 25c to 60c per cwt. The hog market remains firm, and sheep, lambs and calves were unchanged.
