Mr. DONNELLY: I think what the Minister has said is very important, that the statement should go back from 1925 before Garnet came in.

The CHAIRMAN: Gentlemen, the Minister in charge—Mr. Stevens—is naturally a busy man, as you know. I think possibly we can meet next Wednesday, if not before, to have the Minister with us.

Mr. VALLANCE: Is it possible for us to meet without the Minister? I know he is needed at Price Spreads but he is also needed here. This means just as much as price spreads, at least to some of us.

The committee adjourned at 1.05 to resume at the call of the Chair.
