NEED NEW HABITAT HEAVY OLD BULLS FOR WINTER FAIR

Present Buildings and Arrangements Inadequate for All Requirements.

PASSES COUNTY SIZE

Many Exhibitors Desire Better and More Sanitary Buildings for Displays.

Guelph last week agreed it was bigger and better than all that went before. It is a practical demonstration show. as one visitor from the United States 'emarked: "This is a farmers' show. south of the line, but never before have I seen one that caught and held the live attention of the men who grow the crops and feed the stock as does this show."

safe growth from small beginnings, but even now it has not begun to reach the people over the province as it should and might reach them. While there was approval in abundance at Guelph this week, there was also plenty of comment and criticism along these

Show Outgrows Premises.

A World man made it his special business to interview many stock exhibitors and visitors. The various views obtained may be fairly summar-

The Ontario Provincial Fair has grown entirely beyond the bounds and capacity of the present equipment at Guelph. The present jumble of misfit buildings in which some of the finest live stock in the world is held for a week are inconvenient, unsanitary and week are inconvenient unsanitary and highly dangerous from a fire risk standpoint. Except when the animals are being judged in the ring or are on parade they are so tied or huddled together in small coops of pens that the effort necessary to secure a thoro idea of their form and quality is altogether too great for the average visitor. Swine are bunched together in such cramped quarters that it means almost constant work from the herdsmen to keep them presentable. The sheep are in a wooden loft littered with plenty of inflammable material, so that a light from a dropped match end or a cigar would mean speedy and inevitable destruction. And there were smokers aplenty in this loft from morning until night.

Vantilation of Buildings Bad.

The stone buildings are dusty and musty, with ventilation apparently entirely lacking. The air in the horse barn annex is foul. The place is clammy, damp and so cramped for room that neither exhibitors nor visitors have a chance for satisfaction.

There is a section of the interior and highly dangerous from a fire risk steared, at \$4.50 weighed off cars.

There is a section for dressed carcasses, with no provision for shutting off the fetid. dust-laden air rolling in from the chambers where the live stock are housed and horses passing to and from the show ring. The floor is covered with mouldy sawdust.

Meat Man Criticizes.

As a result, one prominent distributor of meats when asked if he were going to bid for some of these carcasses, declared: "They are prime when slaughtered and put in here, but I would not take a chance on them after they have been here several after they have been here after they have been here af

But there are many things a manager cannot do no matter how able he may be if his available funds are not ample for his work.

Undue Economy.

The show is run with undue eco-

nemy on expenses insisted upon by the Ontario department of agriculthe Ontario department of agriculture. That is the main reason why the sanitary arrangements at the fair are a disgrace, and also explains why a disgrace, and also explains why aisles, passages and odd spaces are littered and covered with refuse and filt'i. It should be possible to keep stock show premises at least presentably clean and certainly not offen sively dirty and ill-kept. The show has outrun the limits of its present equipment. To grow, it must have more room. This it cannot have in its present location; and, further, if more room could be secured for exhibits, that would mean more exhibitors and visitors-more people

The present rooming, sleeping and feeding accommodations of Guelp'i OUR CARE. City are utterly inadequate to comfortably care for even an average attendance of stock show visitors. Outside of half a dozen good hotels, with limited capacity, a good meal simply cannot be bought in the town. What's the answer?

Show Too Big for Guelph.

The Ontario Winter Fair is in Onta rio to stay-and grow as one of our biggest and best educational influences. Regardless of any and all petty strings with which the City of Guelph and Wellington County attempt to hind the county attempt to bind the show to themselves, its future welfare and success is bigger than any county or county seat interest. The Ontario Government should, immediately, while the lessons of this last show are still fresh, cast around for a new, permanent location for the show, with the following essential facilities: 1. A central location.

2. Convenient and adequate railway 3. Ample equipment of suitable modern stock show buildings, with sufficient ground and space properly to care for future growth and expansion, with first class buildings large enough comfortably to house all preenough comfortably to house all present exhibits, and constructed with a WESLEY DUNN, view to additions and enlargements on original plans as needed. 4. Hotel and housing accommoda-

tions ample for a maximum attendance of visitors. The present crisis in the fortunes of the Winter Fair offers Mr. Duff a splendid opportunity to distinguish himself in building for the future of the live stock and agricultural interests of the country must not be submerged by local issues.
Will the minister of agriculture embrace this great opportunity?
