

## PEDLAR'S "PERFECT" GARAGES

METAL-CLAD

### Your Own Garage

*Write for Garage Booklet C.M. Showing Various Other Styles*

No need to pay garage rent or to run the risk and put up with the inconveniences of the public garage.

Here is a neat, substantial, inexpensive garage that will suit your needs. It is made entirely of metal, therefore fire-proof. It is roomy, light, weather-proof and properly ventilated.

Its construction consists of a heavy angle-iron framework, interchangeable unit sections of heavily galvanized steel, shipped to you with doors, windows, bolts, hinges all complete and ready to erect. A handy man can easily erect a Pedlar Garage in a few hours.
