## TREND IS HIGHER IN CORN MARKET

## Reopening of Big Food Manufacturing Establishment in Chicago Has Bullish Effect.

Chicago, Nov. 24.—Bullish sentiment prevailed in the corn market today largely as a result of the reopening of a big food manufacturing establishment which had been closed by temporary shortage of coal. Prices firmed strong at half to 1-7-8 net higher with December \$1.32 1-4 to \$1.32 3-8, and May \$1.27 3-8 to \$1.27 1-2. Oats gained 7-8c. The provisions varied from 10c decline to a rise of 22c.

High quotations on hogs, together with talk of continued export demand for corn led afterward to further advance in the market. The weather forecast of rough weather likely to interfere with husking and with the expeditious movement of the crop.

Oats were higher with corn and in view of the decreasing stocks at terminal markets. Provisions were lifted by the upturn of corn and hogs, but later reacted somewhat when the hog market eased down.

Hughes, Harcourt & Co., 307 Royal Bank building, reported the following wire at the close of the Chicago market yesterday: Corn has been active and sharply higher again today, although the selling against offers checked the advance temporarily. The news has been more bullish. Estimated receipts of 325 cars are smaller than generally expected, while the weather forecast is for rain or snow with much lower temperatures. No figures on sales have been given out, but it is understood that some business has been worked on a basis of around 150. The advance in English corn prices has been from a basis of 65 shillings maximum for Argentina to the present basis of 80 shillings for American.

J. P. Bickell & Co., Standard Bank building, report the following prices on the Chicago board of trade: Prev. Open. High. Low. Close. Corn—May 126 127 1/2 126 127 1/2 125 3/4; July 125 1/2 126 1/2 125 1/2 126 1/2; Dec. 123 1/2 124 1/2 123 1/2 124 1/2; Oats—May 76 76 1/2 75 76 1/2 75 1/2; July 72 1/2 73 1/2 72 1/2 73 1/2; Dec. 72 1/2 73 1/2 72 1/2 73 1/2; Pork—May 32.00 32.20 31.70 31.70 31.78; Jan. 31.00 31.20 30.70 30.70 30.78; Lard—Nov. 25.20 25.25 25.20 25.20 24.91; Jan. 24.30 24.75 23.52 23.52 23.30; Ribs—May 18.35 18.40 18.15 18.15 18.12; Jan. 18.30 18.32 18.50 18.57 18.67.

Winnipeg Cattle Receipts. Winnipeg, Man., Nov. 24.—(Dominion Live Stock Branch.)—Receipts over the week-end and this morning were 2846 cattle; 1150 hogs and 806 sheep, while 650 head of cattle are in the yards on thru billing, with the bulk consigned to Toronto.

The market this morning was dull and slow and buyers were holding off for lower prices. Reports from the south indicate extraordinary receipts on the St. Paul market. With liberal receipts of hogs the market was unsteady and buyers were bidding \$12 for select, fed and watered, decline of 20c from the week-end close, while prospects are that a further decline will take place.

Sheep and lamb quotations are steady this morning for good quality stuff. Good lambs were being weighed up this morning from \$12 to \$12.75, while good sheep changed hands at \$9.

## STRONG TONE IN MINING STOCKS

Atlas, V. N. T., Nipissing, Beaver, La Rose and Peterson Lake Prominent.

The week opened in the mining market yesterday with a generally firm tone in evidence and with a number of gold and silver stocks showing pronounced strength. Atlas, Nipissing, Beaver, La Rose and Peterson Lake being prominent in this regard. The price of bar silver rose to the high record in New York of \$1.36 1-4 which was sufficient reason in itself for the upward tendency in the silver stocks. Much mining men consider, however, that such advances as have been scored by the silver stocks since the price limit of \$1.01 1-2 per fine ounce was lifted from silver on May 5 last have been trifling in comparison with the large profits accruing to silver producing companies, and that even fact is being recognized here and will be a very material appreciation in prices.

The movement which began in Atlas last week was continued yesterday, the price rising a point to 33 1-2 with the closing bid advanced still another point to 34 1-2. The "stratosphere" guessing as to the cause of the movement in the stock as no official statement as to the selling of yet, McIntyre was consistently strong throughout the day, and finished with a net gain of a point at \$2.12. Porcupine V.N.T. showed more animation than it had displayed in months, and on transactions of 20,000 shares, advanced 2 1-2 points to 22 1-2. The revival of buying in the stock seems to indicate that the differences between British and United States interests associated in the management of the property have been adjusted, and that the outlook for early resumption of activity at the mine is good. The British interests are understood to be anxious to have development work pressed without unnecessary loss of time.

Nipissing showed activity, the price rising 15 points to \$12.15 with that successful on the 500-foot level of the Harris-Maxwell property of the Asso-
