We Scotchmen of Toronto, as represented by the St. Andrew's Society, the Caledonian Society, the Gaelic Society, the Caithness Society, the Surns Literary Society, and the Sons of Scotland, avail ourselves of your Lordship's first visit to this part of the Province of Ontario to extend a most cordial welcome to Toronto to so distinguished a fellow-countryman. It gives us especial pleasure to know that one has been chosen to command the militia of Canada who represents an ancient and noble Scottish family who has shown, by his brilliant career as a soldier in various parts of the world, and not least in the recent war in South Africa, that he is a worthy descendant of that great Scotchman, who, after faithfully serving his country in the Napoleonic wars of the earlier part of last century, won for himself inextinguishable glory by his later exploits in the fights for liberty of Chili and Peru and Brazil on this continent, and by his self-sacrificing devotion to the cause of the deliverance of Greece from age-long tyranny in the old world. We rejoice to believe that your Lordship's administration of the duties of the high office which your Lordship holds in this country will result in marked advantage to the Dominion, and we trust that the solidarity which recent events have tended to establish between the military forces of the empire and colonies will be strengthened as the years go on.

Your Lordship has no doubt observed that your countrymen occupy no insignificant position among the various races which combine to make up the Canadian fro being arden!ly and enthusiastically Scottish in sentiment and conduct.

The use of hardwood for building purposes has increased enormously during the past few years in Canada. In England the demand is constantly glowing for Canadian hardwood products, required to take the place of oak. The fact that there is a scarcity of hardwood in the United States and other countries is well known. In the near future the great bulk of our lumber will consist of hardwood, as the white pine is rapidly disapposaring.

In the Muskoka district large quantities of hardwood have been left standing, owing to its being of too great specific gravity to float.

The majority of the Directors are experienced and successful lumbermen (two of whom reside in the district), and they have subscribed liberally to this issue of Preferred Stock.

The Trusts and Guarantee Company. Limited, 14 King-street west, Toronto are authorized to receive subscriptions on and after this date for 350 Shares of Preferred Stock of \$100 each, at par. With each two shares of this preference stock one share of the Common Stock will be given as a bonus; after which no bonus will be given with future issues. The remaining 400 shares have already been subscribed for.

The Directors reserve the right to allot such subscriptions and for such mounts as they may approve. A deposit of 10 per cent. is payable on subscription, and the balance within three months thereafter, in three equal payments. Should no ellotment be made, the deposit will be returned without deduction.

It is confidently expected that the Factory and Mills will be in opera-tion before January 1st next. Forms of application may be obtained from
