London, Ont., Thursday, Jan. 2.

Hope is the boy, a blind, headlong. pleasant fellow, good to chase swallows with the salt; Faith is the grave, experienced, yet smiling man. Hope lives on ignorance; open-eyed Faith is built upon a knowledge of our life, of the tyranny of circumstance and the frailty of human resolution. Hope looks for unqualified success; but Faith counts certainly on failure and takes honorable defeat to be a form of victory. Hope is a kind old pagan; but Faith grew up in Christian days and early learnt humility. In the one temper, a man is indignant that he cannot spring up in a clap to heights of elegance and virtue; in the other, out of a sense of his infirmities, he is filled with a confidence because a year has come and gone, and he has still preserved some rags of honor.-Robert Louis Stevenson.

THE CIVIC VOTE.

HOSE WHO WERE willing to regard the welfare of the city as worth a wetting (and they were undoubtedly those who have a real conception of the duties of citizenship) did well by their fellow Londoners who staved at home. The mayoralty acclamation, placing the reins again in the capable hands of Mayor C. R. Somerville, detracted from the interest in the race, as did the acclamations tendered Commissioners F. G. The French premier wants "a balance of power"; the American president, it is understood, is determined upon a league or society of nations, which is also clearly the stand taken by Lloyd George. But it is not conceivable that President Wilson is for any arrangement that will leave loopholes for another adventure of kultur. He has publicly stated that he and the British premier are in complete accord over peace plans, and as Lloyd George has made it clear above all things that Germany is to be made incapable of further mischief, we may be sure that France will be protected in a manner to meet her peculiar position. Whatever may be the details of Mr. Wilson's program, British and American sentiment will insist they include an assurance of protection for the nation which held and turned back the first terrible onslaught of the Hun and saved

A RAID ON DIAMONDS.

C OME "GREAT diamond robberies" have been pulled off in the big cities during the last few weeks. In fact the series of gem thefts moved with clockwork regularity at almost the same time in Montreal, New York and Chicago.
