BIG RECEIPTS OF CORN IMPENDING

Market Closes Weak at Chicago-Oats and Provisions Also Down.

Chicago, Nov. 80 .- Trains of empty cars moving freely into the corn belt brought about lower prices today for corn. The market closed weak, 1/2 c to 1%c down, with Jan. \$1.20% and May at \$1.18% to \$1.18%. Oats declined %c to 1c net, and provisions fell 35c to \$1.05.

Reports from stations where one or two empty cars a week has of late been the rule, sent word today that an average of a dozen cars had been made available. As the cars thus supplied will not run east of Chicago, the beginning of a genuine accumulation of corn here seemed reasonably assured. In this connection it was said eastern demand was being filled from the record crop in Delaware. from the record crop in Delaware, Maryland, New York and Pennsyl-Maryland, New York and Pennsylvania. Under such conditions a little strength which unfavorable weather developed in the market at the outset gave way late in the day to decided bearish sentiment and to an accompanying material setback of values.

Assertions that one million bushels of oats would be delivered tomorrow on December contracts did a good deal to relax the oats market. Moreover, betterment of the car situation attracted much attention.

Estimate Based on Prices Received by Farmers Breaks Records.

Ottawa Nov. 30.—The census and statistics office issued today a preliminary estimation of the total value of the field crops of Canada for the year 1917 as compared with the finally revised estimations of 1916 and 1915. The estimated value for 1917 represents the prices received by farmers, being calculated from current market quotations.

According to the preliminary estimate the total value of all field crops for 1917 is \$1,089,687,000, as compared with \$886,494,900 in 1916, and \$825,370,600 in 1915. This is the first time that the estimated value of the field crops of Canada has reached one billion dollars, this large figure being due to the high prices now ruling.
