Aside from the benefit from the lectures great good would undoubtedly the proposed increase Mr. Ferguson and country residents. The great drawback to the farming districts was the lack of educational facilities and the lack of educational f

Mr. Staples, who is educational sec-retary of the U.F.O., said the old no-tion was, "For goodness sake get off the farm," but recent years had seen the occupation of the farmer restored

# RURAL CREDIT PLAN

Wellington Hay thought that in view of the proposal to legislate regarding loan companies that the methods of clared that the motorists of the province would save \$3,000,000 a year in the prov

resolutions and then allow the minister of agriculture to explain the provisions of the bill on its second reading. There was no disposition on the part of the government to much anything thru without full consideration.

The resolutions were finally held

There were no politics in his de-

Legislative Notes.

The government was waited on yesterday by a deputation to urge: 1. The advisability of getting a survey of the amount of unattended sickness occurring in the province. 2. The advisability of transferring the present nursing and medical echool inspection from the depart-

ment of education to the department 3. The real necessity for measures which will guarantee the continuous and efficient standardization of drugs. 4. The necessity for carrying postgraduate teaching to more remote

places where practitioners cannot leave their homes to attend the great The deputation urged that the hospitals of the province should be carefully inspected as to the standardization of their scienific equipment, and as to what further equipment would

be required to bring them up to a degree of modern efficiency.

The medical men asked the government for a grant of \$10,000 towards a fund esablished to assist the association's committee on education in connection with the post-graduate

schedule it had arranged. The prime minister promised that the cabinet would fully consider the requests.

Strike at Thorold.

Attorney-General Raney was appealed to yesterday to stop the Beaver Board Company of Thorold allowing its employes to carry arms promiscuously. J. A. Flett, of Hamilton, representing the A.F. of L., stated that an American strike-breaking concern is bringing in foreigners and riff-raff of every type who are allowed to go about with rifles and revolvers. "The company," he said, "supplied each man with \$250, with

which to cross the border."

J. F. Marsh, of Niagara Falls; A. A. Weddward and John Noble, of Toronto, accompanied Mr. Flett.

time and he would investigate them al (Laughter.) Biggs on Good Roads.

In commencing his speech on the budget, Mr. Biggs said when he took office he found the fisheries and game branch over-ridden with wardens and overseers. He had reformed all this and appointed 38 returned soldiers and two others distributed through representatives of the bankers' asso-ciation and others present to discuss the province, who gave their told time to their work, with the result our proposals. Use to their work, with the result that efficiency had now been intro-

conjunction with it.

R. R. Hall, Parry Sound, thought the government itself should be its own of the carrying out of the good roads Premier Drury advised passing the timated that a saving of \$6,000,000 a resolutions and then allow the minis-There were no politics in his de-

partment, declared Mr. Biggs, amid U.F.O.-Labor cheers. Ontario was the greatest playground in the world, and hundreds of thousands of motorists from the United States would visit the province if the roads were marked good on the offi-cial automobile map, and they would leave vast sums of money here if they were only assured of good roads. When he came into office there were 422 miles of provincial roads designated, and some of them were 86 feet wide. He fixed 66 feet as the widest road unless property owners were willing to prvoide for anything

wider than that. Regarding Hon. G. H. Henry's assertion that last year a contractor of-fered to do a job for 98c a yard, while the department later paid \$1.03 for the self same work, was erroneous. The department did the work under entirely different circumstances. Henry had also suggested that the department of roads should be carried out under a commission. If he meant ton Highway Commission or the Tolook would indeed be sorry.

Mr. Biggs had never, he said, since taking o ice, paid ou, and never would a dollar for either statute labor or shovel labor.

Needs of New Ontario. M. Lang (Liberal, Cochrane), gave comprehensive outline of the needs of northern Ontario, a country he krew well from long residence there He thought the education department should see to it that school teachers in northern districts are paid promptly. He also made a strong against race suicide, declaring that Ontario's birth rate was much too low n the older districts. Kapuskasing town site. or

rather the government's action in regard to it, was criticized by Mr. Lang. Those "Bribery" Charges.

The attorney-general pointed out the legality of having armed special constables on the company's property, if it is proven to the local magistrate, that trouble is impending. He promised to have the provincial police investigate the situation at once. The company had applied to Mr. Range for protection, which he refused, but the municipality is compelled to give it.

J. F. Marsh, of Niagara Falls; A. Weddward and John Noble of Task

Paying his respects to Hon. Beniah Bowman, Mr. Hill was surprised when he heard of that gentleman's triumphal tour thru New Ontario in a private car, accompanied relations of all kinds, even into the third and fourth generation.

As for the attorney-general, Mr. Hill said that gentleman must find himself at present in a rather embarrassing situation in view of his past utterances regardings the evils of the race track. He would have the country believe that racgardings the evils of the race track. He would have the country believe that racing was being carried on because the Deminion government would not stop it. As a matter of fact the latter did not license racing. Mr. Hill could not understand how such a godly man as the attorney-general could sit in the cabinet after denouncing for years racing and race tracks and now apparently glory in the fact that the government, of which he was a member, benefited from the pastime to the tune of a million dollars a year. Sin was sin and it could not be
