HOUSING OF POULTRY

(Department of Agriculture)

Not all who keep chickens either in town or country know how to secure the best results from their flocks. For lack of knowledge the chicks often develop into spindly-legged, small-bodied, over-laying creatures. And yet any amount of instructive literature is published and can be had without cost by applying to the Department of Agriculture at Ottawa, to meet the constantly increasing demand for such literature. It is interesting to observe that a revised edition of the bulletin on poultry house construction by H. C. Elford, Dominion poultry husbandman, has just been issued by the Department of Agriculture at Ottawa, to meet the constantly increasing demand for such literature. WILL AWAIT THE PREMIER'S RETURN

Matter of Co-ordination of the Grand Trunk With Government Lines.

(Special to The Times.)

Ottawa, Ont., June 7.—Co-ordination of the Grand Trunk Railway with the government-owned railways is not expected until after Premier Meighen's return in August. It had been intended to hurry on this project, but the premier's hurried departure for London made it necessary to defer this and other matters.

Sir Joseph Flavelle, chairman of the Grand Trunk Board, is in Ottawa today, and the temporary board under his leadership has begun the work of preparing for co-ordination. While there are two boards, one under President D. B. Hanna and the other under Sir Joseph Flavelle, the fact that Mr. Mitchell, vice-president of the Canadian National, is on both boards will enable the arrangements to go ahead almost as well as through all positions, President D. B. Hanna will probably carry on.

The Canadian National act will be proclaimed when the premier returns.

FIRES ARE QUITE NEAR THE CITY

Those at Sandy Point Road and Spruce Lake Reported Vigorous Today.

The forest fire in the Sandy Point road district seemed more alarming proportions today and was spreading through a heavy timber growth just above the Peden property. At 3 o'clock this afternoon the fire was burning fiercely in the fully section just in the rear of the old road and was working down towards the Peden property, where it is burning in a house, house barn, etc. They collected water and got ready their fire fighting apparatus in case of emergency. Further along the road there is a farm owned by Mr. Sheppard and on the hill on the opposite side of the road is the Isolation Hospital with its barn, etc.

The forest fire which yesterday swept over thirty acres of timber land on the property of Councillor J. M. Donagan at Silver Falls, burned last night and today the danger was reported.

A fire which started in the woods to the north of Spruce Lake yesterday afternoon, burned over about 100 acres during the afternoon and died down during the night. This morning, however, a fresh breeze fanned the flames into activity again and by noon today they had covered in the vicinity of 800 acres and were still traveling almost due north towards the St. John River. Most of the land covered by this fire was burned some four or five years ago, so that the damage done up to the present has not been serious.

ST. JOHN MAN BUYS YACHT PRINCESS

(Halifax Chronicle)

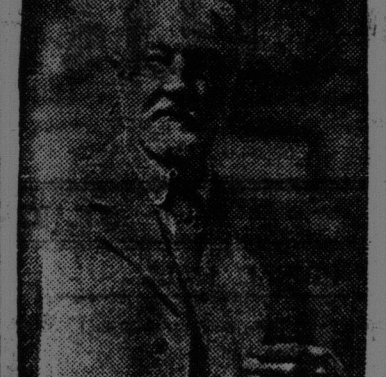

The yacht "Princess," one of the finest of the local fleet, since the property of the late George Wright, and also owned by the late James Terrell, has been sold to L. McJohnston of St. John. The craft, built here at two o'clock Friday afternoon in charge of Mr. Perri, who came here to take her to St. John, and it is expected that they will arrive about next Wednesday. Two men are accompanying him.

News of the sale of the "Princess" was received among yachting enthusiasts with regret. The craft had been built about eighteen years ago for the late George Wright, and has been a popular sailing and racing vessel. While owned by the late James Terrell she was used for many an "enjoyable cruise." Recently, after being sold to Mr. P. D. Bates, chief officer of the cable ship Lord Kelvin, who sold her for Mrs. Terrell.

Last Saturday, Mr. Bates said that he felt sorry that the "Princess" should be leaving Halifax. He had tried to sell her to local yachtsmen, but the price paid for the "Princess" was a low one.

The "Princess" is about fifty feet over-all and measures thirty feet waterline. She has a beam of 11 1/2 feet, a draught of 19 feet. She is of cutter rig. Early in her career she won many races, capturing the Winton Cup in 1909-10, the Crescent Cup Race in 1904-05, the Royal Yacht Club Cup Race in 1904-05, the "Princess" Cup Race in 1904-05, and the "Princess" Cup Race in 1904-05. Other prizes won by her were the Wright Cup in 1912 and the Yola Cup in 1911.
