Indefinite Bargains

By RUTH CAMERON

A FRIEND of mine who lives near the high school, has taken a little country girl into her family for the school term. This girl is going to help her with the children and the sewing in return for her board and room.

My friend was telling me about this arrangement. "How much time will she give you?" I asked. "Oh, I don't know," said the lady airily. "I suppose she will help me whenever I need her."

Can't you see trouble ahead for those two?" I can. If there is anything on earth that makes for dissatisfaction and misunderstandings any more surely than an indefinite arrangement like that, an exchange in which it is not nominated in the bond exactly what each party gets, I have yet to find it.

Usually one party is badly cheated and invariably both parties think they are.

Two old neighbors of mine used to be very dear friends until one summer they foolishly entered into a compact that the horse of the party of the first part should be occasionally allowed to graze in the field of the party of the second part, in exchange for the occasional use of said horse by the party of the second part.

A young nation who was clever with her needle consented to help one of her young girl friends with her trousseau if the latter would help her in the care of her two children. The young mother was fond of sewing and the young girl was fond of children, and both thought this would bring them a pleasant change of occupation, and would be an ideal arrangement.

So it might have been if they had made any definite contract. As it was each woman began to go to mutual friends, complaining that she was going at least twice as much of her time as the other, and through the kind services of the mutual friends in passing the word along, these two also no longer speak.

Of course, everyone who enters into one of these indefinite arrangements thinks that between friends there is no need of a definite contract. In reality, the closer the friendship, the greater the need of definiteness, because the tie is too precious to risk breaking.

If you are going to make some exchange like this, why not reduce the services rendered to a common denominator of time or money value, and then negotiate a fair exchange.

Believe me, you will run far less risk of heart burning and dissatisfaction than if you contented yourself with some vague and indefinite arrangement.

LITTLE SON FINDS HIS FATHER MURDERED; HIS MOTHER SUICIDE

Adel, Ga., Oct. 16.—The bodies of M. A. Crosby, cashier of the bank of Adel and his wife were found in their bedroom here by their six-year-old son. The woman was on the floor, with a revolver in her hand and a bullet through her brain. Crosby was on the bed, shot through the right eye. At the inquest it was decided that Mrs. Crosby had killed her husband as he slept and then killed herself. Sudden insanity on the part of the woman is the only solution to the tragedy that intimate friends can offer. She had been dependent for some time because of ill-health. They lived happily so far as known. The will of the dead man was found in a bureau drawer. It left everything to his wife and children. Crosby was the wealthiest man in this section of Georgia.
