The proposed bridge across the Golden Gate, San Francisco, would span a gap of 6,800 feet.

NEARLY 30,000,000 FEET.

Upwards of twenty million feet of logs cut on the Tobique the last winter have been purchased by the Fraser Companies, which, with the Fraser's own cut, will make a total of nearly 30 million feet to be manufactured at their mill at Plaster Rock. The Fraser Companies are now erecting a new shingle mill at Arbutus, about a mile

down the Tobique river from Plaster Rock, the shingle machinery which moved to the new site.

Is There A Future Life?

Will be Dr. Griffith Thomas' subject for Friday night's conference at St. John's (Stone) Church.

(This will include a consideration of spiritualism.)
