Copy for advertisements to ensure insertion should be in the office not later than Wednesday evening.

The Business Committee meets first Monday in each month.

TORONTO, MAY 23, 1902.

The Australian Commonwealth

During the present spring, the Parliament of the newly-federated Commonwealth of Australia has been dealing with an Electoral Bill.

Don't forget to insist upon having union labels on the articles that you and your family may purchase.

In the year 1880 a member of the House of Commons remarked that "the high wages paid in England made it impossible for our textiles to maintain a competition with the produce of the Indian looms."

Commercialism has had its sway for hundreds of years, and the rights of man have been most indignantly outraged.

In 1770 the wages paid to an agricultural laborer were 7s. 4d. per week, while his family expenses were 7s. 4d.

This is apparent enough when it is stated that the opponents of the federal scheme include gentlemen like Sir Josiah Symon, who just prior to his election, was so infatuated with the Hare principle that he gave a monetary contribution in aid of its promulgation.

A Few Labor Notes from Waudby (William S. Waudby in Typographical Journal)

The capitalist's great error in the past has been that he did not treat his laborer as a man.

It is only necessary for us to refer to ancient history to learn of all the atrocities inflicted upon the laborers under the form of law.

In 1363 a law was enacted in England to regulate the diet and apparel of laborers.

Speaking of English law, how is this one-enforced in 1848: "The poor may be whipped to death and branded for rogues; and so become felons by the law, and the next time hanged for vagrancy, before any private man will set them to work, or provide houses for labor, and stock and materials for them."

That was a fine extravaganza company that recently toured a portion of the United States in its German-American play of the "Prince and the Pauper."

"Privileged Anarchy and Lawless Anarchy, With a Remedy for Both," that makes splendid reading.

Each member of a trades-union should take an active part in the workings of his union, remembering that the officers thereof are not infallible, and furthermore, that they need the advice and encouragement of all good members in their daily trials.

Don't forget to insist upon having union labels on the articles that you and your family may purchase.

North Toronto Electors

To the Readers of The Toiler: Gentlemen—On the 29th inst. I presume the most of you will exercise your franchise, either voting for or against me.

The only answer that can be given is "Party." Now is it not most foolish to do this? Who benefits by "Party," only those who are seeking something from the party, and I venture the assertion that this would not include more than five per cent. of the people.

Just a few words as to what has led me to take the position I do. I was, and am, greatly in favor of the development of "New Ontario."

In less than one year Mr. Whitney, at a banquet in this city given to the visiting members of the Advisory Council of the Conservative Association of Ontario, gave utterance to the following in reference to this same grant:

"Regarding the concession to Mr. Clergue he stated that he still believed the grant was too large, but he was glad, if it had to be given, that it was given to a man of the stamp of Mr. Clergue.

The grant proposed was 7400 acres of land per mile, amounting in the aggregate to 1,865,000.

This was described as the most "phenomenal steal, etc."

In the session of 1901 the Government brought in a Bill known as the "Mantoulin & North Shore Railway," promoted by Mr. Clergue, giving to said railway a grant of 10,000 acres per mile, for 181 miles, and 7,400 acres per mile for 205 miles, making a total of 2,927,000 acres.

In conclusion I again ask for your confidence and support, for which I shall be grateful.

Yours, etc. G. F. MARTER.

West Toronto Election

To the Electors of West Toronto: The time has come when you are again called upon to choose a representative for the Legislative Assembly for the Province of Ontario.

The interests of the City of Toronto shall always have my first consideration in dealing with all public questions.

I will support the rapid development of New Ontario, every settler, every miner, every lumberman who enters this district means a customer for the business men of Toronto, means more work for our workmen, means more trade for our city.

I will support the Government policy for the construction, as a Government work, of the railway into and through New Ontario, so that the agricultural, lumbering and mineral resources of that part of our Province may be developed as speedily as possible.

I will support the extension of the principle of the public ownership of franchises.

I will in the Legislative Assembly, as I have in the City Council, support all legislation which shall be in the best interests of the working-men.

Yours truly, THOS. URQUHART.
