UNCLE SAM'S TROUBLES.

Troops Wanted to Suppress an In-
dian Outbreak.DENVER, Colo., May 21.—A special
to the News from Lander, Wyo., re-
ports an Indian outbreak imminent on
the Shoshone reservation. Six hundred
Arapahoes have defied the authority
of the agent, Capt. Nickerson, who re-
fused them permission to hold their an-
nual sun dance and denied them pas-
sage. Trouble has been brewing for some
time from other causes such as the
late orders giving them rations, but
twice a month instead of weekly as
heretofore, and the failure of the gov-
ernment to issue seed grain for sow-
ing. Captain Nickerson has applied to
the Indian department for United
States troops to maintain his author-
ity and is fearful that a clash may oc-
cur at any moment. The Shoshones
have not yet joined in the revolt.

A LOVE-SICK BOY.

DELHI, May 21.—Irving Marx of
Andres, a schoolboy about 18 years
old, shot himself with a revolver yes-
terday. The bullet entered the breast,
lodging in his shoulder. His condition
is regarded as serious. He was in love
with a girl at school, but her parents
discouraged his attentions. Marx and
the girl had been walking together by
the river. Relatives took her away
from him and he shot himself.

SUM OF \$80,000 STOLEN.

Sum of \$80,000 Stolen.
KANSAS CITY, Mo., May 21.—A
package containing \$80,000 in currency
consigned by registered mail by the
National Bank of Commerce to a bank
in Great Bend, Kansas, has disap-
peared and detectives are working on
the theory that it was stolen by some one
connected with the postal service.

WAS IT SUICIDE?

R. A. Bridges, a Bangor traveller,
disappeared from the hotel Morneault,
at Fort Kent, Me., a week ago last Sat-
urday night. He left his money in the
hotel, along with a letter for his wife,
and told the landlady if he should go
away and not return to send his bag-
gage to Bangor. It was feared that
Bridges had committed suicide, and
this appears to be confirmed by the
fact that his body was found in the
river last Saturday night at Grand
Isle, a little below Edmundston. The
body was ashore at the same spot as
that of Shea, who was drowned in the
river above that point some three years
ago. No information is at hand fur-
ther than that the body has been re-
covered.

INDIANTOWN NOTES.

New Map of the River—Prediction
and Rafts Coming Down.The May Queen brought down a very
fair raft yesterday. Among her
cargo were cattle and a lot of small
stock. Her captain re-
ports that all the wharves at which
they call are uncovered with the ex-
ception of the Range wharf at the
head of Grand Lake, which has about
a foot of water still on it. Captain
McLean's wharf, in Cumberland Bay,

some time engaged in operating a por-

accompanied by the gang of men who
have previously been working with
him. He expects to handle about five
million feet of lumber this season.Frederick Purdy, one of the most ter-
rifying farmers of Jemseg, has po-
tatoes which are now two inches above
ground. Oats are also showing
through in different places.The map which is being issued by
Robert Orchard, of the Star line will
shortly be finished. This plan of the
St. John river and tributaries is a
thing that is greatly needed, and all
who have seen the proof state that it
is a fine piece of work and perfectly
correct in every detail.John N. Paterson, of Washademoak,
came to the city yesterday on his way
to Grand Falls.The tugboat Lily Glasier is on her
way down the river with a large raft
of logs for Randolph and Baker, Hillard

the reach last evening with a load of
dry hardwood for Purdy and Green.
It is being unloaded at the bedroom.Reddick's tug Joseph is lying in the
bedroom, where she is being thorough-
ly cleaned and receiving a fresh coat
of paint.

Fossilized Trees in Kent.

A contemporary reports that an in-
teresting discovery has been made in
the course of digging the shaft for the
Kent coal works at Dover, when a seam
of fossilized conifers was dis-
covered. The seam followed the strata
which contained bitumen. Some un-
usually large and beautiful specimens
have been secured, and will be sent to
the British Museum. In some of
the specimens secured show with re-
markable distinctness the structure of
the tree, with even the grain and the
knots.

THE PRESBYTERIANS.

PHILADELPHIA, May 21.—The con-
sideration of church board reports was
continued at today's session of the
Presbyterian general assembly. The
meeting session began at 9:30 o'clock,
and the assembly proceeded promptly to
business. The special order for the
day were the reports of the committees
on home missions, aid for colleges and
church erection. Addresses were made
by the chairmen of the committees
and board members to the utmost in be-
half of the various church institutions.
Every effort is being made by the as-
sembly to dispose of all the routine
business before debate on revision
shall begin in order that when that
subject shall be settled there may be
little unfinished business to consider.

McEWEN IN CHARLOTTETOWN.

Prof. McEwen had a slight difficulty
in Charlottetown a day or two ago.
He placed a subject in a state of cata-
lepsy in a store window, and on the
authority of the mayor was ordered
by the chief of police to have the man
removed. This McEwen refused to
do, claiming that he was not violating
any law. The matter caused quite a
lot of discussion in the city, but no
further steps were taken.

KLONDIKE McDONALD

Made a Knight of St. Gregory By the
Pope.TACOMA, May 21.—At Dawson two
weeks ago Alexander McDonald, king
of the Klondike, was made a knight
of St. Gregory, by authority of a spe-
cial letter from the pope. The presen-
tation was made by Rev. Father Gen-
dreau, who secured this signal honor
for the Klondike gold miner after long
correspondence with Rome, in the
course of which he pointed out Mr. Mc-
Donald's generous benefactions. Only
two other Canadians have thus been
honored. They are former Prime Min-
ister Mercier and former Governor
Chapleau of Quebec.

LABOR TROUBLES.

DETROIT, Mich., May 21.—At a
meeting of manufacturers last night,
which was attended by 23 representa-
tives of the largest manufacturing com-
panies of the city, it was unanimously
voted that those present should not
sign the agreement presented by the
machinists. It is estimated that those
concerned employ 165 of the 700 machin-

AN ADVENTUROUS VOYAGE.

CHICAGO, May 21.—A special to the
Chronicle from El Paso, Tex., says:
Mexican boundary commission-
ers have just embarked on a voyage down
the Rio Grande in three boats to make
observations and a more complete sur-
vey of the river. It will require three
months to make the trip, and for a
distance of six hundred miles all com-
munication with the outside world will
be cut off. The voyage is considered
an extremely hazardous one, as in
many places the river consists of dan-
gerous rapids, and but little is known
of its windings, where it traverses the
grand canyon.

EMIGRATION TO HAWAII.

timated, about \$10,000 in recruiting
and maintaining the emigrants. Favorable
