The extraordinary reputation that Dr. Spohn's remedy for this distrassing complaint is tery day againing is certainly a mater of much astoshment. That so mach suffering should have existed or agos without any discovery of an felloctaal pricenties, or ento, is truly a subject of much regret but Dr. S. now assures the public that such a rendy has been invented as will convince the most cridulous.—The principles upon which it acts are stiple and plain. It is an admitted fact that this corplaint, whether called Sick Headache, or Nervon Headneh, arises primarily from the atomach—bee who think they have the Nervons Headache my rest assured that this organ, the stomach, ishe first cause, that the system has become vitated; debilitated, through the stomach, and that only furough the same channel must they expect a restotion of the same channel must they expect a restotion of the nature and healthy functions of the system. This object Dr. Spohn's remedy is eminety calculated to attain. The truth of this positionannet be controverted, and the sooner sufferers the the headache become convinced of it, the societ will their sufferings end in restoration of heaft—Dr. Spohn pledges his professional reputation this fact.
