

YOUR BEST FRIEND

On wash day and every other day is **SURPRISE SOAP**. It will give the best service; is always uniform in quality, always satisfactory. You cannot do better than have **SURPRISE SOAP** always in your house. **SURPRISE** is a pure hard Soap.

Strong Points ABOUT B. B. B.

1. Its Purity.
2. Its Thousands of Cures.
3. Its Economy. 1c. a dose.

B. B. B.
Regulates the Stomach, Liver and Bowels, unloads the Secretions, Purifies the Blood and removes all the impurities from a common Plump to the worst Scrofulous Sores, and

CURES
DYSPEPSIA, BILIOUSNESS, CONSTIPATION, HEADACHE, SALT RHEUM, SCROPULA, HEARTBURN, SOUR STOMACH, DIZZINESS, DROPSY, RHEUMATISM, SKIN DISEASES.

No Summer Vacation.

Our arrangements are complete for our usual Teachers and University Students' Classes during the vacation season. Any desired selection of studies from either our Business or Shorthan's Courses (or from both) may be made. RHHHMBRR—St. John's climate and our superior ventilating facilities make study in summer just as pleasant as in any other season.

Send for Catalogue. **S. KERR & SON** Oddfellow's Hall.

The Whole Story in a letter:

Pain-Killer

(PERRY DAVIS.)
From Capt. F. L. Lyle, Police Station No. 5, Montreal:—"We frequently use PERRY DAVIS' PAIN-KILLER for pains in the shoulders, rheumatism, stiffness, frost bites, chilblains, cramps, and all afflictions which befall men in our position. I have no hesitation in saying that PAIN-KILLER is the best remedy to have near at hand."
Used Internally and Externally. Two Sizes, 50c. and 20c. bottles.

William Mitchell, brakeman on the Canada Coals and Railway Company at Joggins Mines, Saturday had one of his hands badly smashed while coupling cars.

News Summary

Estimates of the loss of life by the floods in West Virginia have been again increased and are now placed at more than 100.

President Eliot announces that J. Pierpont Morgan had gives more than \$1,000,000 for the erection of three of the five buildings for the Harvard medical school. The gift is for the prosecution of "applied Biological research."

The first new potatoes of the season came down on the Hampstead this morn- from Mr. Judson White's farm, Long Reach. They were early Puritans and the best first potatoes seen here in years, the knowing ones say.—Friday's Globe.

Caught in streams of molten metal at the American Car and Foundry Company at Chicago, on Wednesday, seven workmen were frightfully burned, three fatally. The explosion of a dynamite shell, which had been placed in the copula with scrap iron, caused the accident.

Two lads, aged eight and twelve years of age, sons of B. Desnochers, went into a hay loft at Sherbrooke, Que., Saturday night with a lamp. It exploded, setting fire to the hay. The younger slipped into a manger, where he suffocated. The older brother in an unsuccessful attempt to rescue him, received burns from which he died.

The recent purchase by a syndicate headed by Messrs. W. E. Davis and David Russell, Montreal, of nearly 1,100 miles of the finest pulp and timber lands in Quebec, is now stated to be the commencement of one of the largest deals completed in Canada in recent years. It is the intention to develop a new water power near the limits and to erect paper mills.

A fine monument to Laura Secord, the Canadian heroine, was unveiled in Lundy's Lane cemetery on Saturday by Mrs. Geo. W. Ross, wife of the Ontario premier. The event was under the auspices of the Ontario Historical Society. This is the first public monument to a woman in Canada, and is the work of the Canadian sculptor, Miss Peel, of London, Ont.

Three negroes were shot and badly wounded, one of them fatally in a Gulf & Ship Island railway train, Sunday night, at Florence, Miss., because one of the negroes refused to give up his seat to a white woman who had just entered the car. The train was crowded with negroes, there being but few whites on it. The white men were standing, the negroes occupying all the cars. When the white woman entered, a farmer ordered a negro to give up his seat to her. The black refused, and the trouble started. When the firing ceased the whites had the entire coach to themselves.

In an engagement at Waterloo, June 20, the British lost 5 men killed and two mortally wounded and had four men seriously wounded. In addition 66 men of the Cape (colonial) mounted rifles were captured. The captain of a Boer squadron is reported to have been wounded and one Boer killed. Recent events in Cape Colony seem to prove the Boer invasion of that country to be serious. A letter to the Daily Mail dated Cape Town, June 5, confirms the pro-Boer report, and says the invaders number anything from 7,000 to 10,000, that they are swarming all over the eastern and midland districts and getting recruits and horses.

The sons of the German Emperor are being brought up in a strict school. While the Crown Prince is being initiated into the student life at Bonn his three younger brothers, Ritel, Fritz, August Wilhelm and Oscar, are hard at work at Ploese, where they are subjected to a daily routine stricter even than that to which they are accustomed at home. Every day they are up at 5.30, have their cold tubs, then their breakfast, and forthwith begin work. The eldest of the brothers visits the first class of the cadet school, the second one attends the lower fifth, and the third the upper third. They appear to have all made plenty of friends there, and take an active part in all the games. The most popular game at the present moment is tennis, while the second place is apparently taken by riding and cycling.

A Washington despatch states: Surg-Gen. Wyman has issued a general circular to medical officers of the marine hospital service, calling special attention to the importance of insects as factors in conveying diseases. The circular says there is no longer doubt as to the relation of the mosquito to malarial diseases and to filariasis. "According to Simond," it says, "plague is transmitted from the rat to man by the flea. Medical officers are directed to place mosquito nettings over the beds of communicable diseased patients." Hospitals are to be thoroughly protected by fly screens at all openings, particular attention having been paid to the kitchen, dining room and protection of the food. Solphur fumigation is given as the best method of killing insects in a large room.

The army reorganization bill was debated in the Lords. The Duke of Bedford and Lord Dunraven closed the bill, urging that more pay and better rations were necessary to attract recruits. Lord Raglan, the under secretary for war, defeated the bill. He said recruiting was proceeding satisfactory.
