thing left for them to co. Thus the mys-tery was solved at last. It was found that everywhere serious mistakts had been committed in the add-ing of the columns of cents and the first column of dellars. There seemed to be some kind of system in the mistakes, too, but their cause remained incomprehensible until a member, after considerable figuring on his own book made the surprising state-ment that the treasurer had, with fateful consequence, been counting sixty cents as a dollar, thus making the accounts show a false surplus much larger than the actual gue.
