Moncton Council Considered The Milk Question

Decided Last Night to File Complaint to Board of Commerce — Dealers Are Charging from 13 to 15 Cents Per Quart.

Special to The Standard.

Moncton, Sept. 15.—Moncton Council in committee of the whole this evening had under consideration the milk question as brought about by the recent action of the milk dealers increasing the price of milk to the consumer from 13 to 15 cents per quart. At a previous meeting the milk dealers were consulted with and their views obtained. A motion to file a complaint to the board of commerce at Ottawa was finally passed by the meeting, the council being of the opinion that if the matter was placed in its proper light before the board prompt and effective action will be taken. The council will cite the fact that St. John City Council was faced with the same question and that an increase was postponed until at least October 1st. They will also furnish the board with retail milk prices at Sussex, Salisbury and other points, all tending that increase here was unjustifiable. At the same time a committee of the whole council was appointed to take up with the city grocers of the various wards the proposition that they handle of the milk business of the city, at least during the fall and winter months. By that time the city would have prepared a scheme whereby the milk business of the city would be handled by the city itself.

The National Industrial Conference Held Sessions In The Capital Yesterday

Continued from page 1.

a part of its platform the labor feature of the peace peace treaty. He emphasized the desirability of avoiding insofar as possible the danger of class dissension in the realm of industry.

Mr. King predicted that no class group formed with the purpose of controlling government could permanently succeed and asserted that any man who refuses to negotiate with other men should be regarded as a public menace.

In closing, he said there were four classes to industry, labor, capital, management and the community. Each of these four was entitled to a voice in the shaping of industrial policies and there must be consideration of the rights of the community without which industry could not progress.

Afternoon Session.

At the afternoon sitting E. M. Henderson said the delegates wished to express their regrets at the absence of Premier Borden. Those present at the conference had wished for his attendance at the conference it was hoped, would have such important effects. Speaking as a member of the employers' group Mr. Henderson said they had come together in the hope that great good would result.

He concluded with a resolution of thanks to those who had addressed the conference.

President Tom Moore, of the Trades Congress, in seconding Mr. Henderson's motion, said he hoped the conclusion of the conference would be best for the country as a whole. The conference had been called, he said, for the purpose of bridging ideals into realities.

For years the workers had been attempting to reach a position where they could discuss their problems openly and all cards on the table. If the employers came in a similar spirit, he felt that the objects of the conference could be reached. Another important matter was that any necessary legislation decided upon should be enacted by the government without delay. He asked that there should be an assurance that action would be taken by the governments—Federal and Provincial—where such was needed.

The resolution expressing regret at the illness of Sir Robert Borden was then put by Senator Robertson, who said the Premier sincerely desired to be present and carried with loud applause.

Senator Robertson spoke of the importance of transportation to industry and called upon Mr. W. S. Stone, president of the Brotherhood of Locomotive Engineers in the United States.

Mr. Stone said that the problems on the other side of the line were the same as here. The social unrest was only slumbering under the crest and could be easily made into flames.

The war was over, but the present period was even more critical, said Mr. Stone, and in the next few months the clock of progress must either be moved ahead or retarded.

The pay envelop does not solve the cost of living, said Mr. Stone, and there lies the whole problem at the present time.

The peace period must end war profiteering, and the cost of living must come down. Wages only mean what you can buy for them. A 20 per cent. increase in wages and a 40 per cent. increase in living costs will never bring peace, said Mr. Stone. The question must be settled "man fashion," face to face, across the table. The solution of the question between capital and labor is the human touch.

Labor is always looked upon as a producer. It is also your biggest consumer.

"In the United States if we can't solve the problem any other way, we will put up plainly marks of every articles," said Mr. Stone, "and if there is profiteering we'll trace it."

Enquiry Into The High Cost of Living

Was Resumed in Hamilton Yesterday—H. C. Beckett, Representing Wholesale Grocers, Pledged Co-operation of His Organization.

Hamilton, Ont., Sept. 15.—The enquiry into the high cost of living was resumed here today.

H. C. Beckett, representing the wholesale grocers of Hamilton, was the first witness before the commission. He pledged the co-operation of his organization and expressed regret at the opinion which prevailed that the dealers were "out to gouge the consumer." Groceries today were sold at a very close margin, he declared.

F. Smye, also of the wholesale grocers, said:

"The retail grocers have been made the goat by both sides," he declared. "They have been kicked around like a football," he urged Mr. O'Connor to shed more light on the sugar situation in view of the allegations that were being made.

Mr. O'Connor—"What are these allegations?"

Mr. Smye—"Some say the jobbers are hoarding, some say the retail dealers are, and some say the consumers are."

"I concur in the last," observed Mr. O'Connor. "I know that many consumers are hoarding sugar. They have been alarmed by reports of shortage."

"Hamilton," Mr. O'Connor continued "has received sixty per cent. more sugar this year than last year. For some weeks past newspaper reports that the price of sugar was going up have helped to produce a shortage. The whole of Western Canada was destitute a short time ago, although sixty-four million pounds more than last year's supply had been sent there."

The hoarding of sugar by consumers, he continued, was legitimate although foolish. He did not believe it would continue, although up to the present there was not a place in Canada which had not lost its head over the sugar situation.

Mr. Smye read figures to show that the profit on the average given last year was only 2.3 per cent. The highest profit reached was 9.29 per cent. and in some cases the grocer lost 6.25 per cent.

Mr. O'Connor delivered a warning that the Board's order restricting the profit on sugar to one cent a pound must be observed by all retailers. "I am told that this law has been broken in Hamilton," he said. "Any dealers who have broken it have been very foolish. The full force of the Dominion Provincial and municipal police is behind the Board's order, and prosecutions have already been registered under it. The law may involve undeserved punishment in some cases, but it is only designed to last until the emergency is passed."

"Why the high price of cheese?" was a question asked by Mr. Smye.

"There is no why," replied Mr. O'Connor. "The price is bound to come down. If it is not reduced within a week the Board may be forced to act."

"The traders themselves are complaining today," said Mr. O'Connor. "High prices are pinching them as well as the consumers. This is a sure sign that the maximum of high prices has been reached. Traders and consumers should get together in an effort to produce a remedy."

Many Visitors Are Attending Fredericton Fair

With Ideal Weather Prospects Good for Most Successful Show in History—Complete List of Judges.

Fredericton, N. Everybody Should Read Contest Column Daily For Suggestions On Closing

Candidates Must Use Great Care in Filling Out Blanks and See That All Blanks Are at The Standard Office by 10 p.m. Saturday, September 27th—Mistakes Liable to Cost a Prize, So be Careful.

Ballots Will be Counted Today and Result Published Tomorrow.

Now that the end of the contest is in sight, during the last days there are certain things to be done which should not be overlooked by the candidates.

See that you have a supply of subscription blanks sufficient to take care of all subscriptions you will send between now and the close. The contest department will not have time to fill out blanks for candidates and they must have enough so as to send in all subscriptions on the regular blanks properly filled out.

Look the blanks over very carefully before sending them in and see that they are correctly filled in. See that your own name appears on the "ballot", and not the name of the subscriber, also see that the proper amount of money is filled in and the correct number of votes you are entitled to. These points are most important for the ballots at the close will be counted by judges and not by the contest manager. The judges must have the ballots plain and correct for they will question any ballot which is not filled in properly and it may be thrown out and not counted. This may seem like foolish advice to candidates but in past contests there have been many mistakes in ballots even by the best of candidates and the only way to avoid these mistakes is to exercise the greatest of care in making out your forms and looking them over very carefully before sending them in. Do not detach the ballot from the subscription blank, do not roll the blanks but send them in flat. Do not pin or attach the money to each subscription blank but have the blanks all together and the proper amount of money to cover them in the same package. All subscriptions must be in the hands of the contest department not later than 10 p. m., Saturday, September 27th, in order to have the votes counted. If you are not going to bring your subscriptions in on the last day, be sure and see that they are in the proper mail to reach The Standard Office by 10 p. m., Saturday, September 27th; any subscriptions received after that hour will not be counted.

Read the contest news every day and keep posted on what to do.

British And French Troops Have Left Fiume

Paris, Sept. 15.—(By the Associated Press.)—Twenty-six thousand Italian troops are now in Fiume, according to the latest advices to the Italian peace delegation here. The British and French troops have left the city, lowering their flags at D'Annunzio's request.

The Italians are being reinforced constantly by deserters from the regular organization. It is feared in general conference circles that the Nitti government may fall because of the Premier's denunciation of D'Annunzio.

Signor Tittoni, Minister of Foreign Affairs, is returning to Italy tomorrow.

The Supreme Council decided today to let Italy deal with the situation created at Fiume by D'Annunzio's occupation of the city, deeming it purely an internal matter.

SYDNEY MINES HAS ADDED ANOTHER SEAM

Sydney, N. S., Sept. 15.—The Scotia Company at Sydney Mines has added another seam to its list of producers, by development of what is known as the lowest seam of the present Jubilee mine. Development work on this seam has been in progress since October of last year and it has now reached such a stage that the company is in a position for further enlargements and increased tonnage.

Mr. Lundy, K. C. After Retailers

Will Not Wait for Board of Commerce to Name An Offender, But Will Order Prosecution of First Man Who Makes More Than Cent on Pound of Sugar.

Toronto, Sept. 15.—"I shall not wait for the Board of Commerce to name an offender, but just as we have word that any retailer is making more than one cent a pound on his sugar, I will order that he be prosecuted." Such was the statement by Mr. Lundy, K. C., in an interview today. Mr. Lundy has been appointed by the Ontario government to co-operate with the Board of Commerce in reducing the cost of living and has been given very wide authority. He may call upon the city or provincial police and Crown attorneys to take action against profiteers, and, if he so desires, the Provincial government will appoint special officers to assist him.

Executors Divide Million And A Half

As the trustees and executors of the estate of Mrs. Laura S. Rockefeller, who died on March 12, 1915, John D. Rockefeller, with his son, John D., Jr., and daughter, Mrs. E. Parmalee Prentice, formerly Miss Aeta Rockefeller, filed an accounting of their stewardship yesterday in the Surrogate's Court and asked for a judicial settlement of the estate.

The report showed that Mrs. Rockefeller's total fortune amounted to $1,563,795, of which all except $10,000 has been distributed among the legatees. As the principal beneficiary the Rockefeller Foundation received $427,733, representing the residue. To the Women's American Baptist Foreign Missionary Society has been paid $300,000 and the Women's American Baptist Home Missionary Society, $100,000.

Mr. Rockefeller's share of the estate, including a piece of jewelry valued at $1,200, totalled $105,000. His son was not mentioned among the legatees. Mrs. Prentice received $101,000, and another daughter, Edith, now Mrs. Harold F. McCormick, got $114,000. Nieces and grandchildren received varying amounts.

Of principal interest in the schedule was Mrs. Rockefeller's collection of jewels and her personal effects. There were fifty-three articles of jewelry enumerated, the most valuable being a string of pearls with black pendant, appraised at $75,000. This was bequeathed to Miss Abby B. Rockefeller, daughter of John D., Jr.

Mrs. Rockefeller's wedding ring was appraised at $8, while an old pair of gold ear-rings was held in the modest sum of $1.

Other items of jewelry were a diamond watch chain worth $12,000, enameled and diamond ring, $5,000; pink pearl ring, $5,000; solitaire diamond earring, $2,000; large cluster diamond brooch, $2,500; diamond and pearl earring, $2,000, and the ruby and diamond ring which Mr. Rochefeller received. Although Mrs. Rockefeller's watch chain was worth $12,000, her travelling watch was held at $50.

Stocks and bonds made up the bulk of the estate and were appraised at $1,480,4406. Fifteen suits of silk and satin trimmed with lace galoon were valued at $300; three suits, with black Spanish lace collars and cuffs, at $120; three suits mulle and tulle at $30 and ten hats at $50.

The trustees asked that the remainder of the estate be turned over to the Rockefeller Foundation, as the executors have excluded the Euclid Avenue Baptist Church of Cleveland, Ohio; the Baptist Home of Northern Ohio, of Cleveland, Ohio; the Home Society of New York and the Spelman Seminary of Atlanta, Ga., from participating in the estate.

ANNUAL FALL FUR AUCTION

Approximately Seven Million Dollars Worth of Raw Furs to be Sold in New York Next Month.

Special to The Standard.

New York, N. Y., Sept. 15.—Approximately seven million dollars' worth of raw furs are to be sold at the annual fall auction in this city, which is to be sold in the Masonic Temple beginning on October 6. Both in value and in the number of pelts to be disposed of the sale will be the largest ever held here. The furs contained in the collection are of unusually good quality for this period of the year, and include important original collections of fresh caught Canadian skins.

Also notable, according to Norman H. Bacon, president of the New York Fur Auction Sales Corporation, is the collection of foreign furs to be offered, drawn from all parts of the world. These furs will be an even more prominent feature of the fall sale than heretofore.

In spite of the unsettled political situation in Russia and Siberia, Mr. Bacon said today that the collection of Russian sables at the coming sale would be the largest and most valuable ever put under the hammer here. All of the furs to be sold will go on show on October 1.

Executives of the corporation anticipate a record attendance, including many foreign buyers who will be permitted by the ending of the war to attend a New York fur sale for the first time. In view of the shortages in many of the most sought American furs, as well as in certain of the foreign pelts, it is expected that new high price levels will be quite generally established at the coming auction.

NUXATED IRON

MASTER STRENGTH BUILDER OF THE BLOOD

The Power Behind the Strong Sturdy Men and Healthy Beautiful Women of Today

"To make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron" says Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), New York and the Westchester County Hospital. Nuxated Iron by enriching the blood and creating new blood cells strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed energy and endurance into the whole system. It often increases the strength of weak, delicate people in two weeks' time. It is estimated that over 3,000,000 people use Nuxated Iron annually as a tonic and blood-builder.

MAKE THIS TEST YOURSELF And Find Out Where Your Blood Stands

See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking Iron in the proper form.

Manufacturers' Note: Nuxated Iron recommended and prescribed by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by Wasson's Drug Store and all other druggists.
