### BUILDING BUSINESS GOOD. WISE AND OTHERWISE.

**Amherst Has a Lot Planned for Summer—Shoe Factory Addition.**

Amherst, April 22—Building in Amherst promises to be more than brisk this summer. Already several contracts are about closed. Mr. C. J. Silliker has two very handsome residences nearing completion on Church street. During last week he sold three pretty cottages, one on Havelock street, to Frank Loughrey; one on Clifford street to Ernest Tuttle, and another to Alexander Tuttle. Extensive additions and alterations are being made in Eater & Pugsley's building on the corner of Victoria and Havelock. Mr. W. B. Vail, of St. John's, Newfoundland, is here, having his building raised, and a new plate glass front added. This building is occupied by the Globe Laundry. Mrs. W. J. Bell, of Church street, is having an extension added to her home, Fry Cottage.

The Bobb Engineering Company has purchased five acres adjoining their property and will erect additions to their buildings. The moulding shop extension is already under construction.

Mr. Andrew Johnson is also erecting a residence. C. J. Silliker has the contract. The Amherst Book and Shoe Manufacturing Company (one of the concerns that was to have been closed by the Liberals coming into power) owing to their largely increasing trade have found their premises inadequate to their requirements and are building an addition. This will front on Station street, 20 feet, and run back 60 feet, and be Douglas street. The building being four stories high, this will give them an actual addition of frontage on Station and Douglas streets of 230 feet, including the old.

The company has lately added another traveller to their staff, and expect to ship goods to Manitoba and British Columbia, as well as Dawson City.

C. W. Holmes is erecting a fine cottage on his land near the I. C. R. crossing. Messrs. Taylor and Tenant are building a large warehouse and stable on Havelock street.

Mr. Daniel McLeod, of Sackville, who owns several properties in Amherst, has sold his home on Havelock street to Mr. James of Hatchford street.

### Brief Locals.

The Baptist ministers met yesterday morning in regular session. Rev. J. A. Gordon, of Montreal, was present, and gave an interesting account of his pastorate in Montreal.

The Methodist ministers met yesterday morning in Centenary. All the reports of the churches were handed in and a preliminary programme drawn up for special services to be held by Rev. Dr. Stephenson in May.

Sydney, C. B., requires a new chief of police. The town council of that place has offered the position to Capt. Jenkins of this city, who is now considering the matter.

The work of re-paving Main street between Ontario and Gerrit streets, Harrison street to No. 5 engine house will be commenced in a fortnight or three weeks.

C. L. Staats, the American clarinet soloist and manager of the Bostonia Orchestra, may hold a grand concert in this city during the week of May 13th.

Hon. A. F. Raymond and Mrs. A. F. Randolph have each subscribed \$25 each to the Home for Invalids.

The annual meeting of the Provincial Rifle Association will be held on Wednesday at Major Paris' office.

The cars of the St. John Railway Company are being fitted with a newly patented and powerful emergency brake.

Yesterday afternoon a sailor, supposed to be insane, ran away from the barque Strathmair in an undressed and unshod condition. He was captured by the police and taken to the hospital.

The packet schooner Beulah Brenton, Capt. James Mitchell, reached Market Slip Sunday from Sandy Cove on her first trip of the season. The steamer has received a general overhauling.

### At Indiantown.

The water still remains high. Yesterday it had not receded but, on the contrary, was somewhat higher than usual. The May Queen will go on her regular route to Grand Lake tomorrow, with Capt. Brennan in charge.

Word has come that the lake, White's Cove and Douglas Harbor, are free from ice. Yesterday the steamer was testing her mechanical parts and generally preparing for the trip.

### Season Pleasantly Closed.

Last evening St. Stephen's Church Guild closed a very successful season with a congregational social, which was thoroughly enjoyed by all present. There were vocal solos by Mrs. Chas. Freeze and Miss Fowler, a piano solo by Miss Ethel Collins and readings by Miss Ethel Farley and Rev. Mr. Hainnie. A new and pleasing feature was bon bon communions. Miss H. Thomson won the ladies' prize and honors were equal among five gentlemen. Light refreshments were served during the evening.

### Miss Ruth C. Long.

Boston, April 22—The death of Miss Ruth Cordis Long, a niece of Secretary of the Navy John D. Long, and a well-known singer, which occurred at her home in Dorchester yesterday, was announced today. Miss Long had been ill with pneumonia and the shock sustained by the death of her mother April 14, is thought to have caused death. Miss Long was born in East Boston, March 30, 1864. At Portland, Me., Miss Long was brought out as a concert singer, her family old. Although urged by her friends to study for the operatic stage, her friends disapproved the plan and the young woman had since devoted herself to church and concert singing. For several years she was contra-bass soloist at the Portland Musical festival.

## That Old Pain Again.

It's an old enemy. You thought you had shaken it off, but the winter winds and the variable spring weather find the weak spot, and the old pain is back again—perhaps even worse than before.

If you have severe pains in the joints and the muscles—pains aggravated by cold and damp, so that you find it difficult to walk, or your shoulders ache so that it is a torture to get into your clothing, it is RHEUMATISM. Do not neglect it or your joints may grow so stiff that you will be permanently crippled. Liniments and outward applications are of no use.

Rheumatism is a disease of the blood and must be treated through the blood. There is only one always reliable, permanent cure for Rheumatism, and that is

## DR. WILLIAMS' PINK PILLS.

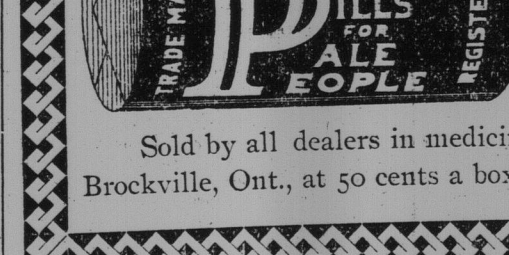

These pills have repeatedly cured the most severe cases of Rheumatism—cured even after doctors and other medicines had failed. They go direct to the cause of the trouble, drive it from the system and thus make permanent cures.

### HERE IS THE PROOF.

Mr. Moise Laframboise, St. Scholastique, Que., says:—“During the years 1897 and 1898 I suffered very much from rheumatism. The disease settled in my knees, and I often endured the greatest agony in going about. I tried several kinds of medicine, but did not find relief. In the spring of 1899 I decided to use Dr. Williams' Pink Pills and purchased six boxes. Before these were all gone the disease had disappeared. As a sort of preventive I took a few boxes more the following autumn, with the result that I have not since felt an ache or pain. I naturally think there is no medicine can equal Dr. Williams' Pink Pills for rheumatism.”

Mrs. A. Husrort, Pittston, Ont., says:—“For several years I was very much afflicted with rheumatism, which last became so bad that I was unable to move about or do any housework. I was treated by one of the best doctors in this locality, but the results were far from satisfactory. A neighbor who had used Dr. Williams' Pink Pills with benefit urged me to try them, and after using four boxes I found myself restored to good health and have not since had the slightest return of the trouble. As my experience occurred over two years ago, I think I may safely say the cure is permanent, and that other rheumatic sufferers will do well to try this medicine.”

Pink colored pills in glass jars, or in any loose form, or in boxes that do not bear the full name “Dr. Williams' Pink Pills for Pale People,” are not Dr. Williams'. The genuine are put up in packages resembling the engraving on the left, with wrap-printed in red.

Sold by all dealers in medicine or direct from the Dr. Williams' Medicine Co., Brockville, Ont., at 50 cents a box or six boxes for \$2.50.

### MOOSE IN HARNESS. UNDER WATER TO THE POLE.

Trained by Idaho Man and Very Useful. Herr Kamppe Expects to Find Open Spaces in the Ice Pack. Onward and Upward.

On a mountain-top farm, 23 miles from Bozeman, Ida., R. W. Roch has a wild animal stock farm. His stock includes 32 buffalo, 69 elk, moose, deer, two mountain goats, and brown, black and three grizzly bears. His great ambition is to have the government establish a great national preserve for buffalo, and he has 62 animals to help stock it if it is ever established.

Many of his animals have become very tame, on at least, of the buffalo allowing him to ride him about the place; while he has tamed one moose so that she comes up to the house for sugar, and is broken to harness. As she weighs 2,300 pounds, and is very powerful, Mr. Roch often uses her to drag the sledges on which he brings home some newly captured addition to his menagerie.

At a recent meeting of the Veana geographical society Herr Kamppe outlined his plan to reach the north pole in a submarine boat now being built at Wilhelmshaven.

The boat will be ellipsoid in form, with a major axis of 70 feet, a breadth of 36 feet and a displacement of 800 tons. The boat will hold sufficient air to last five persons 15 hours, the carbonic acid gas being removed by a combination with caustic soda.

She will have both horizontal and vertical screws, the latter, for raising and depressing the vessel. The motive power will be petroleum, of which 150 tons will be carried. This amount is calculated to be more than five times what is necessary for a trip from Svalbergen to the pole and back.

In the 15 hours during which the boat will be able to stay under water it can cover 20 miles. It will be submerged at the edge of the land of ice surrounding Svalbergen and will be steered toward the nearest open water to the north.

Herr Kamppe does not think that the ice pack is of a greater depth than 20 feet, and the boat can descend 100 feet. If, after six hours, no opening in the ice can be discovered the boat will return to the last opening, but if the pack is thin attempts will be made to blast and open it.

Herr Kamppe does not think that the ice pack continues unbroken in any direction for more than five miles.—New York Sun.
