John Mc Gibson - some one of the names John Mc Gibson came
best we could catch for in conversation. He spoke of being
a friend of father's, said it was with J^r. Gibson of Hamilton
the ex-deput Governor, but seemed to indicate it was the brother
of Gibson of Toronto (Memoria Gibson - the brother) also was
a great friend of father's. Joan was pulling at her beads
while we were trying to get the name & the string burst some
the pearls on the floor, so we had to stop until all were
gathered together - then all was darkness once more, there
were further names and signs. A chain braid with
of yellow (chain) with a silver ^(or white cord) ring around it, kept appearing,
but we could think of no association with anything of that
kind. Then came a name that looked like 'Josephine'; we
could think of no one of that name last since I have concluded it
was 'Josephine' ^{Barbara appeared, she was a daughter of my cousin,} ^{The house falling}
^{appeared, but we could not find it - perhaps it was the same as the house falling}
^{yellow in the spiritual color, which circle - all the time, have been experienced}
of the entire family gathered together. It appeared the light - ^{gold rings page, all came together}
