PUBLISHER'S DESK

We take pleasure in recommending to our readers the value of Cotton Seed Meal as a cattle feed. It is without doubt one of the best foods feeders can use to fatten animals quickly for the market. To the dairyman it is invaluable, and to cream and butter producer there is nothing to equal it. Anyone who has fed Cotton Seed Meal will tell you of the good results obtained. It adds quantity and richness to the milk and is irreplaceable to the butter that cannot be obtained in any other way. Canadians are not slow in appreciating a good article and we firmly believe that Cotton Seed Meal is destined to be used as extensively in Canada as it is at present in England.

Have a Large Foreign Trade
THE ONTARIO WIND ENGINE
AND PUMP COMPANY'S foreign trade is increasing and they are preparing for shipment for the Levant, to compete Canadian Airmotor outfits fitted with special drainage pumps. They are also preparing for shipment for Madras, India, a Canadian airmotor for supplying two houses with water on similar lines used in Canada here.

Their English shipments are also being made constantly and it is gratifying that Canadian goods are establishing themselves in distant parts of the globe.

Very Much Pleased

I am very much pleased with the improvement in THE FARMING WORLD during the past year.

The Feast and the Feaster

There was an itinerant cobbler
Who sat down to eat with his gobbler;
When the dinner was done
There remained only one,
And he was both cobbler and gobbler.
