WRITE FOR CATALOGUE

Saved \$55.00

A MAGNET user wrote us that he wanted to get a larger size owing to the increased number of cows in his dairy. We informed him that he did not require to change his machine that his present one would do and that we could increase the capacity by changing the skimming device in his present bowl, which would only cost him a few dollars.

We made the change and after a full trial he writes us: "I am more pleased than ever with my MAGNET skims the increased quantity, turning as easy as it did before, and cost me just \$55.00 less than my neighbor paid for exchanging his small machine for a larger one; of course his was not a MAGNET, and the whole machine had to be changed."

C. C. Diefenbacher of Hawksville, Ont., writes us on June 6th, 1907.

"I have used a MAGNET in my dairy over eight years. Never missed a skimming and no cost for repairs. Takes all the butter fat out and turns easy. I like the double support to the bowl. The square gear suits me; would not buy a worm gear machine at any price."

Desiring to get a larger machine, I was glad to find it was not necessary to get a new machine, and that I could get the capacity of the present MAGNET increased at the cost of a few dollars, which I have done and it is running fine.

Remember the MAGNET Cream Separator will not wear out in fifty years' use.
