# Notice From Jas. Rettie

To my Friends, and to Readers of Farm and Dairy:

We breeders of Holsteins in Oxford County, are determined that our Consignment Sale at Woodstock, **Tuesday, March 25**, shall be a truly great one. It will be great from the standpoint of really good stock that will be consigned.

My own consignment is one I am proud to have going out as a standing advertisement for my herd. You know as well as I can tell you what this means!

My consignment includes the following five young cows:

**Canary Butter Girl**, five years old, will freshen in May; has a record of 33.5.

**Jessie Posch**, a show cow; will be tested before day of sale.

**Olive Schulling**, 2nd, again to be tested before sale; and her daughter, **Olive Mercena**—her first daughter, 14.65 lbs. butter as a three-year-old, has just calved again, and will be tested again before sale.

**Elmore 2nd**, recently freshened. See reading notes in Farm and Dairy this issue. Get catalogue from H. G. Benfield, Woodstock, Ont., for full particulars of breeding, records, etc.

Yours truly,

JAS. RETTIE,  
Norwich, Ont.

## WHAT IS THE VALUE

OF

# A Good Holstein Cow?

You will have the opportunity to decide what is the value of one of the best Holstein cows in Oxford County,—this at

## The Great Oxford Breeders' Sale

At Woodstock, Tuesday, March 25th, when we will consign the great cow, Canary Triton Jewel.

This Great Cow is one of the largest, straightest, deep-bodied, thick-set, strong-constituted Holstein cows, of great capacity, that can do the hard work of making and sustaining big milk production. She should make a 30-lb. record when she next freshens. She has made over 25 lbs. in 7 days, 101.5 lbs. butter in 30 days.

She is in calf to a son of the great May Echo Sylvia—record at over 11 months, 74.6 lbs. milk in 1 day; 94.5 lbs. milk, 33.6 lbs. butter in 7 days; 17.00 lbs. milk in one year, else to 700 lbs. butter.

This cow ought to bring \$70.00, and is worth more as you would say were you in our state to see her stock, which we have descendant through her daughters and through a son of hers, which we have been using on our herd.

Shadelawn Count Canyon, son of the above cow, will also be in sale. He is leaving the grandest of stock similar in markings, conformation and capacity to his illustrious dam. If you can see the best, buy him!

Also in our consignment, **Quilinda's Bonnie Lassie**—in calf to the aforementioned bull, 17.7 lbs. butter as a junior four-year-old, and was first prize three-year-old at London in 1908.

Write H. G. Benfield, Woodstock, Ont., Secretary of the Sale, for Catalogue. Study breeding of these top-notch Holsteins. Come to the sale and see them and you will not consider any price too big for them.

## MARKET REVIEW AND FORECAST

Toronto, Monday, March 10.—Dealers have been conservative in their previous estimates of trade conditions since the opening of the new year. They now are speaking a little more optimistically. Wholesale firms are receiving about the same volume of orders as in previous years, and this in itself is a good indication of an optimistic spirit all through the country.

Speaking of the cattle industry a leading Toronto daily recently proposed a very radical method of restocking the country. After dealing with the noticeable decline in the cattle industry of both this country and the United States, Argentina was held up as an example of the country that had solved the cattle problem. Some years ago Argentine passed laws forbidding the slaughter of beef calves under six years of age. As a result that country is now the world's chief live stock exporter. In their annual report the Swift Company of Chicago recommended that similar legislation be put in force in the United States, and the Toronto daily refers to this as a plan that a similar law in Canada would do a world of good. We would suggest that if the farmers of Ontario were to get a dividend on stock farming as does the Swift Company of Chicago or the various packing companies of foreign lands there would be no cattle scarcity to deal with. What changes there are in the cattle industry are mostly on the down grade. Grains are very quiet and in many cases reduced, as are also the prices of hogs. The hog market is active and higher.

### WHEAT

The condition of the winter wheat crop is still reported favorable. Wheat growing countries of the Northern Hemisphere are making large offerings in European markets. There are believed to be still large reserves of wheat in European hands in America. Consequently prices have declined somewhat. Ontario wheat is particularly weak. Its offerings are large and of a poor quality, and are selling at low prices. Quotations are as follows: No. 1 Northern, 91.50 to 92.00; No. 2, 89.50 to 90.00; No. 3, 87.50 to 88.00; No. 4, 85.50 to 86.00; No. 5, 83.50 to 84.00; No. 6, 81.50 to 82.00; No. 7, 79.50 to 80.00; No. 8, 77.50 to 78.00;
