It takes the "BARNING" Out of the "CHURNING"

#### THE FAMOUS

# RELIABLE

Hundreds of Farmers' wives have given up making butter because "churning was so laborious. Too much hard work for the money there was in it.

But they did not try the "Reliable," way. Churning isn't 'play" with the "Reliable," but it is "easy work," a child of six can operate it. It gets quick results and is easy to keep clean.

The "Reliable" Churn operates with the efficient "Dash" motion, but with a high-geared rotary drive.

The "Reliable" is easy to keep clean, the double glazed, white stone jar lifts right out for washing.
