

Aylmer Superior Level Force Pump

For Hand and Windmill use. Has Six, Eight, and Ten-inch Stroke. Adjustable Base.

Fig. 36.

Fig. 36 represents our Superior Lever Pump, fitted for hand and windmill use. Made in 1 1/2 and 2-inch.

This style of lever and fulcrum has several advantages over the ordinary style; having longer stroke, the power is greater, making it work easier. The handle being wood, they are not so liable to break in frosty weather.

The base is adjustable, admitting of top being raised or lowered to any position desired.

The handle is drilled for three lengths of stroke. Six, eight, and ten-inch stroke.

This is readily converted into a Windmill Pump by the addition of a flat bar, which screws into the cross-head on top.

Cylinders capped inside require to be two inches longer to obtain same stroke.

This pump is adapted for all depths of wells; furnished with Iron, Brass Body or Brass Lined Cylinder. You'll never regret placing

one of these pumps on your farm. Write us to-day for prices and illustrated catalogue free.

The New Way Air Cooled Engine

Can be depended upon at all times

No danger of cracked cylinders or bursted pipes. The only engine for zero weather.

No chance for any trouble with water.

It is absolutely guaranteed.

No Freeze ups.

It is a heavy duty engine built for continuous service.

Long runs do not affect it.

I have used one of your "New Way" engines for five years. It is a good engine and cannot be beat. We have never spent a cent for repairs, that was the fault of the engine. There never was a time when we could not start it. We can back you up in anything you say about the "New Way" engine because you have the goods. W. B. & T. H. Roberts.
