GOLD FEVER .- A report has been current in the city for the last few days that a rich gold field yesterday says that he met upwards of 300 people

within a few miles of the city on their way to the Diggins, carrying provisions, and prepared with all needful implements for action. It is said men are coming in droves from other sections of the province also.

We have made enquiries of a number of persons, and we frankly confess that our impression, is from all we hear, it is a perfect hoax from first to last.

It is just possible that the "golden age" fo New Brunswick has come, that the cry of " hard times " is to be heard no more, and that hence-forth all the people are to luxuriate in boundless wealth. Such is the possibility-the probabili-ities are all on the other side.-Chris. Visitor.
