JOSHUA SUCCESSOR TO MOSES.

JOSHUA 1. 1-19.

After the death of Moses—Never, in the history of the Chosen People, could there have been such a blank as that when they became conscious that "Moses the servant of the Lord was dead." He who had been their leader, lawgiver, oracle, was taken at the very moment when they seemed most to need him. To fill up this blank Joshua was called. The Lord (the original "Jehovah.")—The later Jews held the word Jehovah to be so sacred that they would not pronounce it. Critics suppose the true pronunciation of the word lost, owing to this superstition. The Jews translated the Old Testament into Greek some time before the advent of Christ, but they would not use this most sacred name; in order to save it from desecration on the lips of the Greek reader they used in place of it the Greek word for Lord, Son of Nun—Nun lived and died undistinguished from the thousands of his brethren who passed all their days in the Egyptian bondage; but his son, by valor and piety, rescued his father's servile name from oblivion. So the poet Horace, by his genius, immortalized the Roman bondman who begat him. Moses' ministers—The original word differs from that usually rendered servant, "in that," in the words of Gesenius, "it implies the more honorable duty or function of a free attendant."

Moses is dead—Was this the first intimation of the fact which Joshua received? It may have been; for no one was on Mount Nebo when Moses died, and no one, therefore, could be sure of this demise unless informed of it by God. All this people—Numbering, according to the last census, 601,730, from twenty years old and upward. See Num. 26 51. Migrations on so vast a scale are not without parallel in the East. As late as the last century a whole nomadic people—100,000 Tartars—retreated under cover of a single night from the confines of Russia into their native deserts.

From the wilderness—The land should be bounded on the south by the Arabian desert, on the north by Mount Lebanon, on the east by the Euphrates, and on the west by the Mediterranean Sea, as was already promised to Abraham. Gen. 15, 18—21. Your coast—Your boundaries. These included a larger territory than the Hebrews ever possessed, except for a short time during the reigns of David and Solomon. The breadth, from Lebanon on the north to the desert on the south, is one hundred and forty miles; the length, from the Mediterranean to the Euphrates, is about four hundred miles, making an area of fifty-six thousand square miles, equal to the States of New York and Vermont. But Canaan Proper, or Palestine, was only one hundred and fifty miles by forty, making an area smaller than the State of New Jersey.

Not any... able to stand before thee—That is so long as Joshua and his people continued faithful to God, for to all God's promises there is the condition of man's fidelity. I will be with thee—He needs no other allies who is allied with the Almighty.

Observe to do—Not only to admire and praise, but to obey. Many complaints the Bible who yet violate its precepts. The true secret of prosperity in any enterprise, great or small, lies in obedience to the divine commands. This lesson we may learn, not only from the history of Joshua, but from that of Joseph; of Moses; of Saul; of Uzziah; and from that of Hezekiah. Turn not from it—Perfect obedience is represented by a straight line, and a course of sin by a crooked way. Hence, the terms righteousness, rectitude, uprightness, and, in matters of opinion, orthodox; while the word wrong is etymologically akin to wrong, twisted.

This book—The Pentateuch, which was laid up in the Holy of Holies in the Tabernacle. Not depart out of thy mouth—The law is in our mouth, not only when we are incessantly preaching it, but when we are reading it intelligently for ourselves, or conversing about it with others.

The Lord... is with thee—As the soldier's valor is stimulated by the eye of his captain, so a vivid realization of God is the best safeguard against unmanly terror.

THE NURSING OF THE AGE. A medical writer in a leading English paper says that the ignorance of most people of nursing and medical treatment, even of the simplest kind, is profound. "I remember," he writes, "some years ago being called to an Israelite who had invited, and whom I found surrounded by a score of friends, the outer circle howling and the inner endeavoring to drain a teaspoonful of jam into his mouth. I remember educated people sorrowing because their relative—down with typhoid fever—cannot eat mutton chop. I remember cases of measles and chicken pox sent to school in cold and wretched weather. I remember patients lost who in nursing would have saved; and many saved by nursing alone. And remembering these, remembering that a host of cases similar or worse than those recorded, of ignorance, foolish-

ness, and recklessness, multiply in a world so burdened with them already, I cry, Who will make himself or herself a blessing to overworked and aggravated doctors by teaching people common sense and nursing sense, and the importance of things they deem trifling, but which are more potent in the saving of life than all the pills and plasters of a brilliant pharmacopoeia?

SCHOOL ROOMS.

A medical commission was appointed some time ago in Germany to study and investigate certain questions relating to the construction of school buildings. In the matter of ventilation the commission states that each pupil in a school ought to have 2,120 cubic feet of fresh air each hour, at the least. It is stated also that light from the rear is admissible, but is not recommended, and windows facing the pupils are prohibited. Walls of neighboring buildings painted white and reflecting the sunshine into the school-room are very injurious, and the owners should be persuaded or obliged to paint them of a dark color. The inside face of the walls of the school-room itself is to be painted pale blue or bluish white, and the ceiling pure white. Artificial light should be used without hesitation on dark and short days. It is more dangerous to work by insufficient daylight than by gaslight. Argand burners are preferable, as giving a steadier light, and ground glass globes are objectionable on account of the large proportion of light which they absorb.

USEFUL HINTS.

It is best not to cut grass early in the season, unless it has made unusual growth. Cover kerosene stains with Indian meal; when the oil strikes through, remove and put on fresh; repeat this until the oil is removed. For a scald or burn apply immediately pulverized charcoal and oil. Lamp oil will do, but linseed is better. The effect is marvellous.

Salt and water will prevent the hair from falling out and will cause new hair to grow. Do not use so strong as to leave white particles upon the hair when dry. No girl, whether from the lowest or highest position, is fit to become a wife, a mistress of the home, who has not been carefully educated in all the accomplishments of the kitchen.

Horses are social animals, particularly so in the case of young horses. They thrive best when in the society of others; hence the advantage of pasturing several in one field when practicable. To those wishing to break off from tobacco, gentian root coarsely broken, chewed and the saliva swallowed, is recommended as an antidote to the craving for the weed that will at first be felt.

The Farm and Garden says that despite the constant attention which is called to the value of sheep, not only as improvers of the soil, but as profitable farm animals for wool and mutton, there are many farmers who have never raised or kept a single sheep. Baking plates and pudding dishes that have been used for a long time need a thorough cleansing occasionally. To do this put them in a kettle of water in which you have put a spoonful of wood ashes to one quart of water. Let them boil in this for an hour, and if any grease has been absorbed through cracks in the glazing, it will be removed.

For Cramps, Pain in the Stomach, Bowels Complaint or Chills, use Perry Davis' Pain Killer. See adv. in another column. CARD—Being in possession of a valuable remedy for Asthma, Hay Fever, Phthisis, Bronchitis, and all difficulty in breathing, I have consented after numerous solicitations to make it known. Any individual suffering can get valuable information by addressing REV. G. FRED. DAY, Musquodoboit Harbor, Nova Scotia. May 4 1/2

Get him out of bed—I was confined to my bed with Rheumatism, could not move hand or foot. A clergyman called to see me and advised me to use Minard's Linctum. I did so and in three days was out of bed and resumed my work as well as ever. JAS. LANGILLE, Springfield, Annapolis Co., 1882. mar 2 1m

RELIABLE, KING'S CO., N.B. July 24th, 1866. I have used Graham's Pills myself and in my family and find them to be the most effective pills I have ever known, and I have tried all the popular Catholic Pills in use. They cause no griping, do not leave the bowels inactive after their use, and are most effective in removing diseases of the Liver and Bowels. I have proved them to be a superior Dinner Pill, and without hesitation I recommend them to the public. (Deacon) JAMES KIRKSTRAID.

Avoid by all means the use of calomel for bilious complaints. Ayer's Cathartic Pills, compounded entirely of vegetable ingredients, have been tested for forty years, and are acknowledged to be the best remedy ever devised for torpidity of the liver, costiveness, and all derangements of the digestive apparatus.

Advertising Cheats.

"It has become so common to write the beginning of an article, in an elegant, interesting manner, 'I then run it into some advertisement that we avoid all such.' And simply call attention to the merits of Hop Bitters in as plain, honest terms as possible. 'To induce people 'To give them one trial, which so proves their value that they will never use anything else.' The REMEDY so favorably noticed in all the papers, so rapidly and so effectively curing all other medicines. 'Religious and secular, is 'Having a large sale, and is supplanting all other medicines. 'There is no denying the virtues of Hop Bitters, and the proprietors of Hop Bitters have shown great shrewdness. 'And ability. 'In compounding a medicine whose virtues are so palpable to every one's observation.

Did She Die? "No! "She lingered and suffered along, pining away all the time for years. "The doctor doing her no good. "And at last was cured by Hop Bitters. The papers say so much about it. "Indeed! Indeed! "How thankful we should be for that medicine."

A Daughter's Misery. "Eleven years our daughter has suffered on a bed of misery. "From a complication of kidney, liver, rheumatic trouble and a nervous debility, Under the care of the best physicians, "Who gave her disease various names, "But no relief. "And now she is restored to us in good health by a simple remedy as Hop Bitters, that we had assumed for years before using it."—THE PARENTS.

Father is Getting Well. "My daughter says: "How much better father is since he used Hop Bitters. "He is getting well after his long suffering from a disease declared incurable. "And we are so glad that he used your Bitters."—A LADY of Utica, N.Y. je 1m

If so, go at once and get a bottle of Mrs. WIGGLESWORTH'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold every where. 25 cents a bottle. Feb 1/2

For toothache, burn, and inflammation use Perry Davis' Pain Killer. See adv. in another column.

BEST AND MOST COMFORT TO THE SUFFERING.—Brown's Household Panacea has no equal for relieving pain, both internal and external.
