

A Double-Header This Afternoon

Several New Players Will be Seen This Afternoon and both Games Promise to be Exciting—Entire Proceeds go Providing Hospital Beds for Our Soldiers

The great attraction to-day will be the double header baseball match in St. George's Field. The entire proceeds will be devoted to the worthy object for which Sir Wm. Horwood so eloquently appealed, the providing of beds for our wounded soldiers, for Gifford Hospital, England. The admission fee will be 10 cents for adults and 5 cents for children.

The Cubs will have Orr on third with Joe Murphy in the outfield. Fred Brien, the ex-Shamrock outfielder, will be in the 'outer garden' for the Wanderers. The new 'famous' Kelly will probably be on the mound for the Lions, while Mgr. McGrath of the Irishmen will present a new first baseman, Simpson, of whom great things are expected. Umpire-in-Chief Chesman and Major Montgomerie will control the games with Mr. P. E. Outerbridge as scorer. Following are the line-ups.

OUR THEATRES

THE NICKEL.

There is a grand holiday programme at the Nickel theatre to-day, and being a half holiday there will be large attendances no doubt. Charlie Chaplin, who draws \$670,000 a year, will be seen in his very funny comedy, 'Shanghaied', a story of 2,000 feet. 'The Romance of Elaine' will be continued. The installment is known as 'The Life Chain' and is an exceedingly clever episode. Pearl White and Walter Jameson are in the leading characters. The performances to-day begin at 2 p.m. and 7 p.m. sharp.

THE CRESCENT

The Crescent Picture Palace presents to-day Maurice Costello and Mary Fuller in 'A Girl of the Mountains', which is a pretty drama of the woods and the hills. A very realistic war drama is 'When Lee Surrenders', produced in two reels by the Kay Bee Photo Play Company. 'Young Love' is a fine social drama by the Selig Company. 'Brown's Cook' and 'He wanted his pants' are two laughable comedies. The musical programme is a feature of this great holiday show. Don't miss seeing it.

Another Story of Caribou Hill

Splendid Bravery of Harry Raynes in Risking his Own Life to Save That of His Comrade J. Murphy Who was Badly Wounded by Turks

Notwithstanding our danger we could not help laughing. We now got another dose of bombs and were all firing from the incessant bombing and firing. The word was now passed around that a party of twenty Turks had gone around our right. Donnelly turned and said "We will be all killed or captured, this is the last stand. Collins answered "We may be killed, but I'm da—md if we'll be captured alive." Up to this we had brought down about twenty of the enemy.

Now let us see what they are doing in the trenches about this time. When Snow went in he reported us as surrounded by the enemy and a little later on we were reported as all wiped out. The boys in the trenches were in an awful state. Volunteers were got ready to go out and take our places or find us dead or alive. A party under Lieut. Ross, in which were J. Murphy and H. Raynes, Elsworth, Green and Hynes, were sent to our assistance. They did not reach us but came in contact with the party getting round to our right. We heard the first trench mortars fired and knew that someone had met the Turks. The uproar for a while was terrible and although they were only six to thirty-four men, succeeded in turning the enemy and saving us. Ross went in wounded, J. Elsworth killed, Murphy was seriously wounded and died after. I will tell you about his death before I discontinue our story.

"The first trench mortar from the enemy hit him in the side and Harry Raynes took hold of him to bring him in. Raynes asked him if he was much hurt and he said "Yes Harry, my side is gone" and Harry said he put in his hand and it fell right through Joachim's side. Another trench mortar hit Murphy in the back and he said "That's a hard one, Harry." Another hit him in the calf of the leg. He lost over twenty pounds of flesh that night. Besides the three trench mortars he was hit by eight bullets. As each one hit him, he used to say to Raynes, "I got another Harry." While Raynes was dragging him along, Murphy saw two Turks approaching and told Raynes, "Al right" said Harry. He fired and got one Turk, the other one tumbled and fell, but was up again before Harry was ready. Luckily for Harry and Murphy he stumbled and Harry said "You'll get no more now boy" and he let daylight through him. He now dragged Murphy in and I can tell you no man died braver than Murphy. He was smoking cigarettes the whole time and talking to the men, though he was almost cut up, and when the Doctor was dressing his wounds, he used to say "Which side will I turn on now." And don't forget that Murphy gave his life to save the men on Caribou Hill, and I was one of them. Elsworth died just after they brought him back to the lines.

Now let us return to the men still on the hill. Of course we had been firing all that time and being bombed too, though we were now getting used to it. We were now given up altogether in the trenches, and no men were allowed to come out.

[The above is taken from a letter received from one of the members of Ours. The writer pays a great tribute to Raynes, who he says, is well deserving of a V. C. for his heroic conduct. Pte. Raynes, who was recently mentioned in the casualty list as wounded in France, yesterday wire his brother Phil that he was improving favorably.]

MORE FISHERY NEWS

July 8th. From A. J. Pearce. (Twillingate to Trump Island). The catch is 879 qtls. with 40 for last week. Thirty traps, and about 40 skiffs are fishing. Fishing was worse this week than last both traps and hook and liners getting only a few fish each day. There is still sufficient caplin for bait but owing to rough weather no fishing was done for two days last week. Salmon are still being taken but they are not so plentiful as previously.

July 8th. From R. Lawton. (Southern Head to Knight's Cove Pt.).—Fourteen traps and from 8 to 12 dories and skiffs are fishing. The trap fishing was poor during the week the hauls amounting to only from 1-2 to 2 qtls. Very few hook and liners are operating as most are engaged taking caplin which is plentiful. The men report very little fish on the grounds and nothing for trawls or nets. The total catch is 1530 and for last week 150 qtls.

Former Mld. Boy Prisoner of War

Was One of the First Prisoners Released by Germany in Exchange for German Prisoners—Is Having a Fine Time in Switzerland Where he is Well Treated

The following letter which speaks for itself was recently received by Mrs. Rose Murphy, Trenton, from her husband who is still a prisoner of war:

Pension Bois Gentil, Chateau D'Oex, Ct. Vaud, Switzerland.

Dear Wife:

Just a few lines hoping you are quite well as it leaves me at present. I have got some good news to tell you. I have been exchanged to Switzerland. We got to Constance on the 26th and the doctors passed me. We left on the 29th and as the train left the station we felt quite relieved. Two minutes ride and we were across the border, and oh what a surprise. The Swiss people had turned out in thousands all along the line. They covered the train with flowers and cheering like mad. This is a fine country and the Swiss people treat us like gentlemen. We have got our liberty, but we are under certain restrictions.

As I sit here writing, the birds are singing and you can see the snow on the hills. I have got a room which I share with two other men and we have a wonderful sight from the window and we can nearly forget the past. You would like to know what was the matter with my leg. Well, it is gas poison, and I was not allowed to put that in the letters from Germany. I have been laid up all the time I have been a prisoner. I was senseless for four days before I was picked up off the field. But with this change of climate and good doctors and treatment I shall get quite well in time, in fact, I am beginning to feel better already. I do not want any parcels now. We get plenty, but a bit of Highland tobacco would be acceptable. I received Captain Taylor's parcel and the tobacco just before I left Seltan. Will you write to him and thank him for me and tell him I got the nut with the gum on it, and also I got the nice bacon from Mike and some tobacco. I have seen Newman Jettis and he is working somewhere in Germany and God help him because I cannot. I was very sorry to hear about Willie McLoughlin and I think myself lucky to get out the same as I did, and I will write again very soon because we can write when we like now. Will you send these photos you promised. Remember me to all friends and tell them I am safe in Switzerland. I hope the children are all well and remember me to them. I think this is about all this time. Will write again soon.

From your loving husband, JACK.

This young man, with his parents, left St. John's about 20 years ago. He was one of the first to rush to the colours in New Glasgow when war was declared and went forward with one of the first contingents of the Canadian Expeditionary Forces. His mother is a sister of Mr. Samuel Joy of New Gower Street. He has a wife and six children at New Glasgow and was one of the first Canadian prisoners to be released from the German prison camps and sent to Switzerland in exchange for German prisoners from the Entente Powers. Needless to say, his wife and children as well as his relatives in St. John's are delighted to know that he will soon be restored to them.

The Mount Cashel Garden Party will be held on the 26th inst., when a most enjoyable day is assured the public. A splendid programme of sports has been arranged, including a pony race, which will be of great interest to all. This day, now known as Mount Cashel day, besides affording the lieges an opportunity of participating in a very enjoyable fete gives them the added privilege of helping out one of the most worthy institutions in our midst. We feel sure that this year the public will attend in larger numbers than ever before, thereby showing their appreciation of the efforts of Rev. ASKING FOR SALT.

Messages were received yesterday from Freshwater and other parts of Conception Bay asking that salt be rushed along as quickly as possible. They are getting all the fish they want and fear some of it will spoil for want of salt. Since the starting of the railroad not so many schooners are on the go and consequently there is not so much salt stocked as heretofore.
