246TH BATTALION QUARTERED AT HALIFAX

(Morning Chronicle) The 246th Battalion, Nova Scotia Highlanders, has arrived in the city from Aldershot and is now quartered in the huts on the Common. They are a fine looking lot of men, every one of them physically sound. Starting next week there will be a canvass of Eastern Nova Scotia, taking in the Counties of Colchester, Cumberland, Pictou, Guysboro and of Cape Breton Island. At a conference held the other day between the recruiting committee and the general officer commanding the Sixth Division and staff, it was decided that for the present precedence should be given to recruiting for the 246th, this to obtain until the battalion has been recruited up to strength. The plan is to send it immediately overseas as soon as it has reached full strength. In England it will be established as a reserve depot for the Highland Brigade.

FRENCH CARRY HUN TRENCHES IN NIGHT RAID ON THE SOMME

Paris.—A system of German trenches Northwest of Sully-Saillies, on the Somme front, was carried by the French last night the War Office announced today. The French advanced as far as the Sully Church.

South of the Somme the Germans made repeated attacks between Beaches and the region South of La Maisonette. By means of their last attempt they obtained a footing in some of the Maisonette farm buildings.

On the Verdun front the artillery fighting was less severe near Douaumont, and there was no infantry action in that locality.

Rheims was bombarded violently and some civilians were killed.

Berlin.—(By wireless to Sayville)—British troops, attacking the German lines on the Somme front between LesBiefs and Marvel, succeeded in gaining some ground from the Germans, the War Office announced today.

It is the necessity of using Norwegian waters to get most securely at the Archangel routes that renders Berlin so savage at Norway for her timely embargo. Clearly the British Government is wide awake to the opportunity of heartily supporting Norway. Germany will not be permitted to bully that stalwart little people. But Norway, with her shipping disappearing like melting snow in summer, must wonder what President Wilson meant when he pretended to cast his shield over all neutral vessels. He talked as if he stood not for narrow American interests—but for the broad and high principles of neutral right. Yet who imagines that, if Germany had sunk twenty-three American ships since October 1st, there would not have been a stiff "note" sent from Washington to Berlin?

BRITISH RAID TRENCHES

London.—British troops made two raids on the German trenches to the west of Wytschaete, Belgium, and east of Boesinghe, last night, says the official statement issued this afternoon by the British War Office. A number of prisoners were taken. The text follows: "Heavy rain continues to fall. There is nothing to report from our front south of the Ancre. "During the night we conducted two successful raids on enemy trenches west of Wytschaete, Belgium, and east of Boesinghe, taking prisoners and inflicting considerable damage. "Enemy working parties were bombed by us in the neighborhood of La Basse canal and suffered many casualties."

ONE SOLDIER TAKES 102 GERMANS

London.—One of the fifteen Victoria Crosses, the award of which are made in today's London Gazette, is to Pte. Thomas Jones, who according to the official account, after killing three snipers who were shooting at him, entered the German trenches, and, single-handed, disarmed one hundred and two Germans, including three or four officers, and marched them back to the British lines through a heavy barrage fire.

TOTAL PROHIBITION FOR QUEBEC PROVINCE

Temperance Forces Join In Effort to Gain It at Next Session

Quebec, Oct. 26.—Representatives of the Anti-alcoholists Leagues of Montreal and Quebec and representatives of the Dominion Alliance met here tonight and resolved to organize a campaign in the Province of Quebec. Should the Provincial Legislature fail to grant the demands of the temperance men this coming session an endeavor will be made to induce Montreal and other centres where the liquor traffic is legalized to enact prohibitory by-laws. Those present declared they would stand for no compromise.

SHOULD MAKE INCREASE IN PRICE OF PAPERS

Advertisers' Convention Would Have Subscribers Pay Larger Share.

The need for an increase in the subscription rates of daily newspapers and other periodicals as the result of the substantial increase in paper costs was the outstanding matter dealt with in the last day's session of the third annual meeting of the Association of Canadian Advertisers, who brought their convention to a close at the Prince George Hotel yesterday evening. The question was raised in the report of the circulation and rates committee, the report declaring that the subscribers to a daily newspaper does not pay the cost of the paper upon which it is printed. It was shown that the cost of publication of an ordinary newspaper is from three to five cents per copy. The report declared that the advertiser is required to pay altogether too large a proportion of the costs of publication, and maintained that increased publishing costs must be met by a general increase in the subscription prices of daily papers and periodicals.

Delegates to the convention expressed their strong disapproval of the method of artificial stimulation of the circulation of a periodical by the gift of premiums and such like devices, the sentiment of the convention being strongly opposed to the practice.

SOUND SHOULDERS

Here are the direction postures in the stables of a construction camp which uses 1,200 mulion in a Southern State, as told in a recent issue of "Country Life in America."

Wash the shoulders and the back of every saddle and pack animal with cold water at noon and rub dry. If a "green" or young animal, add a teaspoonful of alum or a pound of salt to a bucket of water.

All callars must be unstrapped at noon and every particle of dirt and sweat removed.

For fresh sores, apply elder leaves boiled in a lard mixture.

Hanky-Panky Not Agreeable

(Boston Transcript) On the whole it is cause for satisfaction that there is to be nothing said about the matter of the U-53 since anything said in such a vein would necessarily be discreditable piffing. This nation has no stomach for wordy buncombe. It has no taste for arguments designed to prove that a isolation of international law. Such hanky-panky may be amusing to children, for a time. It is not agreeable to American citizens when the juggled objects concern the honor of the nation.
