From Wednesday and Thursday's Daily.

A letter was received by Dr. Hedger in the last mail from Dr. W. G. Hepworth of Nofice. Dr. Hepworth left for awhile. I have bought three or four the beach city last March traveling four interests and with what I got titled Callaghan against Callaghan four interests and with what I got titled Callaghan against Callaghan from Cowley I am pretty well interested. The story of their differences date and now is time to see what they conteam. The letter reads as follows:

H. L. Hedger, D. S.: Dem Sir -- We made it here in 41 lays; pretty bad travleing though, had to use snowshoes quite a lot, 1 have done a whole lot since getting here. It being a very late spring and I have made two trips to Gold Run, one to the Kougarok. I leave for latter place again tomorrow night with a

She has been a tough old winter FORCED TO here, lots of people frozen to death and some snowed up for days at a time. All the houses out of Nome were out of sight in snow to to 20 feet over the roof. One place I had to walk through a tunnel 60 feet long to get into the Anders Pays Rent for Building house. At Topcock two fellows got up morning and started a fire, it I. L. Anders, one of the proprietor would not burn, then they started to try to get out of the door, but they were so badly snowed up over roof and door they could not make it. The fire bunch of troubles. He alleges that he leased the building adjoining McLensmoked and they were suffocated to and that is to to 15 feet long above the burger & Weissberg, the owners of the roof. They are freighting with horses here and most of the stables are just dug out of the snow dirfts and a door

As the fire was near the waster line and not burn and they were placed benches except in a lew spots—they could take a pan of dirt anywhere and it would not go less than 3 or 4 cents and lots of places in it 50 to 60; it would average at least accents. I saw them pan myself and know it. They are doing quite a bit of work during the national and how it is a dozen and how it is are doing quite a bit of work during the winter and are finding out that more winter work can be done than was expected. I can see by the winter work that has been done that there a lot of good properties. Of course, up the creeks there is too much snow to see much, but the claim holders would not be taking lumber and provisions to such an extent unless they knew they had something, and lots of lumber and grub is going up the creeks, some one way, some another, one hundred miles in all directions from Nome except grub is going up the creeks, some one way, some another, one hundred miles in all directions from Nome except out to sea and I expect they will ge

As far as I can see, this country is good enough for me, and Dawson will not see me again. All the old Dawson boys say Dawson is not in it with this namp. One can huy in on very likely recks for less money than one could stake for. I got a half interest on a most likely creek on the north fork of Kougarok for \$100, that is 500 feet of id-it is a 1000 foot claim. The men here are broke and have numerou properties and no money to take grub out to them and they will sacrifice some of it to make a raise before the snow goes. I only wish I had a few thousand dollars here now. I am taking provisions into the Kongarok for the summer and I expect I will be up

there most of the summer. I think, doctor, if you could sell out in Dawson you would do a whole lot better here, of course, it is only my opinion, but I do not see how you can help but do better as far as mining goes. You have a hundred chances liere where you would have one in Dawson, and as far as your practice poes it is worth as much here as in Dawson by what I am told,
