ART OF SWEEPING.

DODDS

NOW LOOKS LIKE ACCIDENT.

probability. The story of Leo, the brother, while it has taken several forms in the telling, as presented by several interpreters, is constant in the main point, that the pistol was dropped and exploded upon centact with the floor, causing the death of the man who was bending over to recover it.

bedded those to recover it.

An expert in guns and gun wounds, who examined the fatal weapon yesterday, gave the following opinion:

"The pistol is a Browning of Belgian make, identical with the Colt's automatic magazine pistol. The breach of this pistol when fired in the ordinary way recoils, throwing out the empty shell and throwing up a cartridge from the magazine, ready for a second shot.

Coroner Powell opened an inquest at the morgue y tarday.

LIKE A THIEF IN THE NIGHT.

Brockville Nominations

GREAT DISTRESS IN HER

THROAT.

There is a Wrong Way and There's Right Way to Do This Work. Every one does not know hew to weep a room. It requires skill, comsweep a room. It requires skin, com-bined with patience, to clean a room properly. The chief mistake made by a novice is to think she can hurry through it and to think the room will be clean if she takes long, heavy strokes with her broom. Short, light strokes which are firm will do the strokes which are firm will do the work as it should be done. It is always best to sweep a heavy brussels carpet or one of similar make once with the grain, then once across it, going over each three or four yards in this way-outil the entire carpet is swept. When a carpet is old and evenly worn this is hardly necessary, but if it is new or has any perceptible ridges this method should surely be followed. After going over a room Suspicion of Foul Play in Toronto
Shooting Grows Weaker.

Toronto, Oct. 1.—While many conflicting points are still in evidence in connection with the shooting of Nicola Turpenoff, the Macedonian shopkeeper, on Sunday at his home here, the theory of accidental shooting seems new to carry a weight of probability.

The story of Leo, the brother, while followed. After going over a room thoroughly allow the dust to settle, and in ten or fifteen minutes give it a final brushing, sweeping it lightly, and

nothing is more satisfactory than a sweeper or dampened broom.

Tea leaves scattered over the carpet

Tea leaves scattered over the carpet are good. They should be squeezed as dry as possible and sprinkled over the carpet before the final sweep.

Another good plan is to sprinkle the floor before starting to sweep with dry table salt. The salt seems to brighten the colors of a faded carpet as well as to aid in removing dust. When the second sweeping is over use which as to aid in removing dust. When the second sweeping is over use a whisk broom in the corners and around the edges. After the walls are dusted and the carpet clean it is well to wipe off the surface of the carpet with a cloth dipped in salt and water which has been wring out as dry as which has been wrung out as dry as possible. This will remove every trace of dust. The cloth used for the purpose must be frequently rinsed in fresh water and then dipped into the ond shot.

"The weapon when examined was found to contain six cartridges and one empty shell. This would show that the pistol had fallen on its butt, with the wider side toward the man. The impact with the floor exploded the charge, preventing the slipping of the breech and the expulsion of the shell."

Corener Powers salted water again and wrung out as before. Then, some folks like to go over the carpet with ammonia water, but I prefer the salt, as salt keeps out

moths.

It is needless to say that in sweep ing as thoroughly as this every article which is movable should be removed first or dusted and carefully covered with old sheets. When buying heavy pleces of furniture be careful to select those that have good, easily moved casters, so the articles may be pushed about and the dust be kept from behind and from underneath them. That's how pain comes. We sit-near an open window, get stiff neck or sore back. Perhaps cool off too quickly after exertion— rheumatism

hind and from underneath them.

It is a great mistake to neglect sweeping as thoroughly as this every two weeks. If you do, the dust becomes ground into a carpet and helps it to wear out. Besides, dust discolors it more than or quite as much as wear. Fortunately many houses of today are built with hardwood floors, so the burden of sweeping is greatly lessened, as rugs are difted, shaken or beaten out rugs are lifted, shaken or beaten out of doors. Hardwood floors, if swept with a hair brush instead of a broom, then rubbed with a little oil or simply pollshed with a waxing brush, can he kept in good condition with comparatively little labor.

### HINTS FOR THE HAIR.

Brockville, Oct. 1.—The provincial bye-elections nomination proceedings passed off quietly yesterday afternoon. As expected, W. A. Lewis, Liberal, and A. E. Donovan, Conservative, were placed in nomination, and each addressed about 300 of the electors, assembled in Victoria Hall. When there is dryness of the scalp When there is dryness of the scalp the application of warm olive oil to the head prior to washing is recom-mended. If possible this should be done twenty-four hours before the half is shampooed, the oil being both rub-bed into the scalp and also allowed to saturate the roots. This has the effect of strengthening it, and in the case of weak and falling hair it will

and berths returning) to certain points in Quebec, N.B., N.S., Nfid.

Write for them, A test will tell. Your health is certainly worth this simple trial.

Sold by All Dealers. into a china basin and add a few tainto a china basin and add a few ta-blespoonfuls of hot water. Set the basin in a pan of boiling water and let this stay on the stove until the soap is melted. Sometimes it is necessary to add a little more water to the bits, and one need not be straid of cetting to add a little more water to the bits, and one need not be afraid of getting in too much. One cake may easily make a pint of liquid. When the soap has arrived at this condition put it into a wide mouthed glass jar and set away in a cool place. When cool it will be

or few manufactions

To Mend Gauze Hose.

In mending stockings, use four ply cotton, but with three different sizes of needles. One fine needle is threaded with a single strand of black cotton and is used for the small holes in the thin gauze or lisie thread stockings. This tears the fabric much less than the ordinary large eye darning needle. A second rather large size is used for the larger holes with two strands of the cotton, where the single thread would take too long and not fill in strongly enough. The grave, is the common treasury to which we must all be taxed. THE WABASH SYSTEM Wabash trains teave Chatham: WESTBOUND.

A Dutch Ironclad. It is of interest to note that, according to some authorities, the Dutch were the first in the modern period of history to build an ironclad and that during the slege of Antwerp by the Spaniards in 1585 the people of that city built an enormous flat bottomed vessel, armored it with heavy tros plates and thus constructed what they regarded as an impregnable battery. This they named Finis Belli. Unfortunately the vessel got aground before coming into action and fell into the hands of the enemy. It was held by Alexander of Parma to the end of the slege as a curiosity, but was never employed by either side in any action. It is of interest to note that, accord ployed by either side in any action.

Stomach troubles, Heart and Kid-Stomach troubles, heart and Ridney affinents, can be quickly corrected with a prescription known to
drugg ats everywhere as Dr. Shoop's
Restorative. The prompt and surprising relief which this remedy

Man is Wiser.

Gerryman (at the mirror)—Put a monkey before a looking glass, they say, and he will look behind it. Miss Sharpe—But a man knows better. He knows he won't find anything funnier there than the face of a see, before him re than the face La sees before him.

All affectation is the vain and ridiculous attempt of poverty to appear

Trial Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription, known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by All Dealers.

TAKING CARE OF TEETH.

ed, at least a little, that the length of the center bristles shall not interfere with the end. Unless those at the tip are longer than any other part no benefit is derived by its use. A flat brush is good for the front teeth, and that is all.

One should always be careful not to use too stiff a brush or the gums will be made to recede. A soft one is equal-

be made to recede. A sort one is equally cleansing.
Astonishing how few people know how to brush their teeth. The brush is rubbed across the teeth instead of up and down, and a moment's thought will show that, while rubbing across will clean the flat surface, the edges and curves are left absolutely untouched.

The movement should always be

The movement should always be from the gums down to the tips on the upper jaw and from the gums up on the lower.

In this way only are the particles removed from the teeth. Added to this, dental floss should be used after each meal and always at night.

A DESIGN IN DRAWN WORK. An Agreeable Change From Regulation

There is a charm about openwork effects in needlework that from the very earliest times has appealed to the votaries of the craft. It was exemplified in the productions of the middle ages and is in evidence in the filet lace so much favored at present,
In the accompanying illustration is Died In Father's Arms.

Ingersoll, Oct. 1.—In West Zorra on Saturday the little son of Mr. and Mrs. Alonzo Johnston was almost instantly killed by the kick of a horse. When found by the father the child was still breathing, but he passed away as he raised him in his arms.

a lovely example of fine embroidery worked upon a background of linen enriched with drawn thread work. A garland of La France roses wrought in

floss silk, exquisitely shaded twines itself around a medallion of filmy texture, entirely carried out in cut and drawn thread worked with white filo floss. There is something very delicate and graceful about this piece, which is an agreeable change from the regulation centerpiece, the fancy for which is somewhat on the

Gathering.
To gather without putting on the attachment to the sewing machine lengthen the stitch of the machine and stitch along where the material is to be gathered with loose tension. Taking the garment from the machine, draw the under thread to give the desired When gathering thin goods stitch twice about a quarter of an inch apart. This does away with laying the gathers, which often tears this eloth.

Codfish, Mexican Style. Fry to a pale yellow one small finely chopped onion in three tablespoonfuls of butter. Add two tablespoonfuls of of butter. Add two tablespontants four, half a green pepper chopped fine and one cupful of stewed and sitted tomato pulp. When the tomato sauce reaches the bolling point add half a pound of salt codfish which has been tresbened for twenty-four hours in cold water and slowly simmered until it readily will separate into flakes.

A Sample of What V.S.C. does.—Mr. Merrifield,—I was so severely stricken with Joint Rheumatism that I was confined to bed for a long time with swollen and stiff joints; it even affected my stomach I gave up all hope of ever being cured. The doctor finally 'told me he could "ease my pain but could not cure me." My sister heard of your Veteran's Sure Cure, and sent for a bottle. I took half of a \$1 bottle. This enabled me to walk about as usual. This was about six 'years ago, and I have had no return of Rheumatism. Mrs. H. Pr'vat, Williamsford, Ont., Sept. 11th, 1907. A late novelty in the way of a black potato has just reached the vegetable markets. The potato was sent from the Kongo and is said to have an excellent flavor. It is to be used for or-namental cookery.—What to Eat.

### BEAUTY NOTES.

The continual wearing of gloves at night causes the hands to assume a yellowish tinge. An occasional wearing is all right.

A few drops of any good tollet water in the last rinsing water give a faint suggestion of perfume to the hair that is very refreshing.

A reddish brown veil is the best protection against the sun's rays. White and blue veils are no good whatever, since the sun's rays pass directly through them.

Learn to dance. Dancers are fine walkers. Dance fifteen minutes every day. It will make you more limber in the unused muscles. When you walk try to relax a little. Most walkers walk as though they were trying to walk a crack. They walk stiffly.

If a girl is on her feet all day she should wear her clothes rather snug below the belt—just as the runners pull the beit or girdle tight—and she should get into the habit of standing with her shoulders thrown back. It is just as easy after one gets used to it.

Clothing

Femininity Much Excited Over a New Face Flapper.

Fair woman's outfit for the preservation of her beauty is growing so large and all important that it will presently be necessary for her to have a separate dressing room or beauty surgical office in which to store these very valuable instruments. There are more of these aids to beauty invented every day, and many women keep as keen an outlook for the new things to this line as on new fashions in frocks.

Just now femininity is much excited. over a new face flapper, with which the face is gently tapped with at view A Handy Measure.

If you have a pint jug and wish to measure off half a pint with talerable accuracy it is useless to try and do so by guessing when the jug is half full. A better way is to tilt the jug until the contents just reach to the upper end of the bottom of the vessel and treet trends the lin at the lower end of to restoring the contour and brachs up the muscles. The face flapper has a long handle and a disk at one end

for flapping purposes.

There are new nasal clamps and nasks much in use for the young daughters of faithful mothers who go about improving the shape of their offspring's nose in this manner as sysonspring's nose in this manner as sys-tematically as if they were proceed-ing with the education or moral train-ing of the young person. Women who wish their faces to be smaller find wish their faces to be smaller fluct bands for the purpose at all the bean-ty pariors, while women whose double-chins are the troublesome point in their appearance are provided with chin straps which have holes for the ears, which keep the strap in place. A childless bome is a cheerless home. The maternal extinct exists in every woman, and when it is ungratified she is deprived of much of the happiness of life. It often happens that childlessness is due to some cause which can be removed, and often is removed by the use of Dr. Pierce's Favorite Prescription. The vigor and vitality which this remedy imparts to the delicate womanly organs, puts them in a condition of normal health, the lack of which is often the sole obstruction to maternity. Every womar should read Dr. Pierce's Common Sense Medical Adviser, a book containing 1008 pages and 700 illustrations. It is sent entirely free on receipt of stamps to pay expense of mailing and customs. Send 31 one-cent stamps for the paper bound velume, or 50 stamps for cloth covered. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y. All these masks, straps, nose clamps, etc., are made of rubber, which does no harm to the skin and is not up-

ARRANGING FLOWERS.

The Japanese Can Teach Us Much Is This Art.

Among the many arts and graces which we Americans have yet to learn is the arrangement of flowers so as to-display them to the best advantage. We bring in from the fields or from We bring in from the fields or from the florist's the most exquisite blos-soms and then ruin them and con-demn them to an untimely end by crushing them into a vase entirely-too small for their bulk or by allowing them practically to drown in a sea of unnecessary water.

It would do us, then, no harm to

JUST THE VASE FOR A FEW FLOWERS.

to learn from some more favored na-tion the proper relation between flow-ers and their receptacles.

The Japanese, most expert people in this line, would tell us, for instance, that the fewer flowers in a vase the better the effect, so that they be not overwhelmed by its size.

The tall vase of roses illustrates this dictum admirably. It is actual cruel-He-Do you think Styles and his wife

dictum admirably. It is actual cruel-ty, as well as a crime against tasted to cut rose stems so as to accommodate them to some small and stocky vase. This style of receptacle be particularly good in ope glass, being thus adapted to all the varied hues of the roses.

The Origin of Gloves: The origin of gloves is very ancients ome authorities assert that they were known in Bible times from refer

known in Bible times from references made to "shoes" which were thought to be identical with gloves.

The first clear account of glovescomes, however, from Xenophon. This writer speaks of the Persians wearing gloves on their hands to protect them. from the cold. Homer describes Lacutes working in his garden with gloves on his hands to protect them from the thorns, and Varro mentions this apparel as being worn by the Romans.

Gloves have been tokens of solemns and important things from the mintimation of the church, and later the transferring of lands or titles was always attentions. ring of lands or titles was always attended with the presentation of glores. In the eleventh century the method of challenging to single combat by throwing down a glove was instituted, and

Gloves were not worn by won til after the reformation.

The Care of the Eyes.

A great many of the mysterious headaches with which women are afficted must be put down to overstrained eyes, and this kind of headflicted must be put down to overstrained eyes, and this kind of headache can only be cured by giving the
eyes a thorough rest, and, when a cure
has thus been effected, great care
in the use of the eyes in future is
indispensable. Reading, writing or
sewing in a dim and flickering light;
must be given up, and the common
practice of attempting to read in a
joiting train or omnibus must also be
discarded. The eyes should never be
used too long at a time, and, when
much eye work is necessary, prief
rests and bathings in hot water should,
be resorted to if the dreaded headache is to be kept at a distance.
