Another feature of the remoter history of the Sahara is now revealed. We know that the desert abounds with traces of an ancient system of irriga-tion which the late Cardinal Lavigerie contemplated restoring. We also knew now, on the authority of the eminent explorers Foureau and Gentil, that the desert is thickly studded with extinct volcanoes, ancient and modern.
The basaltic remains of the Grand Erb and the many basaltic peaks of the Adrar are mentioned. But the most remarkable case is that of the Air district, where over a territory ninetythree miles in extent many volcanic peaks are met with, recent enough to show the craters well preserved.-Lon-

## Red Rose Tea Uniformity

A TEA that is good to-day and poor to-morrow is un-

Have you ever noticed variations in the quality of the tea you use? One package good, the next bitter, herby, perhaps weak and insipid.

A lack of expert knowledge by the tasters and blenders of that tea produced that result. There was a failure at a vital point, an ignorance of combining qualities in teas, poor judgment in the blending of that maker's teas, a weakness which invariably gives just such results as your poor

Every chest of Red Rose Tea is tested at the gardens, again by the Eastern Red Rose shippers, then at the Red Rose warehouse upon its arrival b fore blending; after that an experimental blend is tested, and the final or actual blend is also tested before being packed.

Nothing is left to chance.

That is why that "rich fruity flavor" is always present in Red Rose Tea. Why Red Rose Tea is always uniform, why

WHEATLEY.

There was great excitement in town Thursday night when it was learned by telephone that the white-cap case had been dismissed. Nearly all the people in town flocked to the station to meet the train which brought the men back to town. A procession led by the Wheatley brass band escorted them to Reynold's restaurant, where a good feast was prepared for them. Everyone is well satisfied with the way the case ended.

About eleven o'clock Thursday About eleven o'clock Thursday morning the house of Enoch Mc-Lean, who lives about a mile south of the village, was destroyed by fire. Just Mr. McLean's two daughters, Miss Bessie and Mrs. Alf. Young, were at home when the fire broke out. The fire broke out in the summer kitchen and soon the flames reached the roof of the house. Willing helpers soon arrived and they reached the roof of the house. Willing fielpers soon arrived and they proceeded to carry out what furniture they could, but over half of it was burned. The loss will be about \$2,000 and the insurance on the house was \$600 and on contents \$175.

Mr. Henry Lambert moved his house from the farm to town last week.

Recent experiments conducted by most eminent scientists, prove that light is a great remedial agent; it is essentially Nature's agent. It may be either sunlight or electric light, but it has a decided effect in helping nature to banish disease and restore health. Other scientific men have proved that oxygen electrifies the heart and can prolong life.

The people on this earth are susceptible to some laws which govern plant life. A plant cannot be successfully grown in the dark. A man is seldom healthy and strong who lives in the dark or in sunless rooms. After all, Nature's remedies are always best for eradicating disease, and by this we mean a medicine made of roots and herbs. They are assimilated in the stomach and taken up by the blood and are, therefore, the most potent means which can be employed for the regaining of lost health. Dr. R. V. Pierce, consulting physician the linvalidis Hotel and Surgical Institute. the most potent means which can be employed for the regaining of lost health. Dr. R. V. Pierce, consulting physician the invalids. Hotel and Surgical Institute, at Buffalo, N. V., in many years of extensive practice, found that he could pin his faith to an alterative extract of certain plants and roots for the cure of all blood diseases. This he called Dr. Pierce's Golden Medical Discovery. Containing no alcohol nor narcotics, entirely vegetable, this "Discovery" makes rich red blood and is a powerful tissue builder, giving the tired business man or woman renewed strength and health. Rapidly growing school-girls and boys often show impoverished blood by the pimples or boils which appear on face or neck. To eradicate the poisons from the blood, and feed the heart, lungs and stomach on pure blood, nothing is so good as Dr. Pierce's Golden Medical Discovery.

Don't allow the dealer to insult your intelligence by offering his own blood remedy to you instead of this well-known preparation of Dr. Pierce's. Ten chances to one he will substitute a cheap compound having a large percentage of alcohol in it.

Dr. Pierce's Pellets are the best for the bowels. Use them with the "Discovery."

International Bible Lesson for To-

"Josiah and the Book of the Law."
-II. Chron. 34, 14-28.

Golden Text-"I will not forget Thy Word,"-Psl. 119, 16.

Our lesson took place in the 18th year of King Josiah's reign at Jerusalem. How the Book of the Law could be forgotten can easily be understood by those familiar with the history of the Bible in what is called the dark ages, and by what we all know that "the carnal mind is enmity to God," Call to your scholars attention the nations and communities who are now without God's writties who are now without God's writties who are now without God's writ-

en word,

Here we have God's elect nation Here we have God's elect nation, God's only Temple on earth, with its only Book of God—lost; all its priests and its king at 26 years of age with out the knowledge of its truth. Into what an awful condition of dark ignorance, superstition and sin must the whole nation have sunk; but "the entrance of Thy Word giveth light." (Note the effect produced on the king by the Holy Spirit using God's word. Verse 19—"He rent his clothes." The prophetess Huldah, with a mind enlightened of God's Spirit, is consulted. She directs them with "Thus saith the Lord."

Although Jerusalem was doomed for forsaking God, Josiah, its king, was spared for seeking Him. Josiah'd heart was tender; he humbled himself, hearing and believing (God's word wrought in him this penitent contrition and sorrow, and "this poor man oried and the Lord heard him and delivered him out of all his distresses." and He always will

and delivered him out of all his dis-tresses," and He always will.

To thousands now the Book of God

To thousands now the Book of God is a lost and forgotten Book. Bibles are jewels, they are plenty, this fountain of the water of life is not a closed spring, a sealed fountain; its streams flow for general use and make glad the City of God, as in that great passover feast—read chapter 35—kept at that time.

If our earthly rulers, national and spiritual, gave heed as King Josiah did to the Word of God, how our countries and cities would rejoice the world over, but they will not, and sentence is pronounced.—II. Peter, 3, 17-12.

How important that those who read and profess to be guided and govern-ed by the truth of God, and possess' the Holy Spirit and the Holy Rook, we should with our lips and our lives show forth Thy praise, as living epis-
