managers will other an excenden pro-gramme of amusement. THE FIRST.—The Elora lacroses boys have determined to celebrate Dominion day in a becoming fashion. The Fergus lacroses club will engage with them in a friendly exhibition game in Victoria Park, and the Guelph football on will do its utmost to vacquish that of Elora. In both cases acciting and close games may be ax-pected. But these are not the only at-tractions in the park, for foot racing, jumping and other athletic sports will be provided for the amusement of the large orow a expected to be present. In the evening an escellent concert will be given in the drill abed, when the unapproach-able and inimitable James Fax will con-vulse an Elora audience once more with comis congs and recitations. A chesp ex-cursion will run to Orangeville on the C. P. R., tickets costing \$1 for the Found trip. a circle may be taken if desired, and the effect is even more striking then than when the whole circuit is completed. As an illustration of this Mr. John R. Common standing at the Market Pisce here, took a picture, a few days ago, which comprised a view down Metcall street, another down Geddest street, another in front slong Col-borne, in the direction of Fergus, and another up Geddes toloking iowards the Catholic church and Salem. Every object is distinctly delificated. Upon the value of this improvement in photography it is needless to expaniate. The instrument can be produced at is very small increase in cost, and will goon be in the hands of all enter-prising professionals and amateurs. BAD ACCIDENT.--On Friday last Mr. John Thomas, an old settler here, but who was wifeless and childless, and who for years has driven a team conveying lime from Gray's lime kiln to the railway, was driving along Geddes street when the lines were jerked from his hand by the horse's tail. He stepped out on the waggon tongue to recover the lost lines, placing his hand on the back of the off horse, which gave a sudden start and he fell to ompleted. As

Snow.—The summer show of the E ora Horticultural Society will be held between the 6th and 12th of July and that of Fergue comes off on the the first of the productive of a fine display of fruit and flowere, and it is expected that Elora will surpass some of its previ-ous best exhibits. A propos of floricul-tural matters, it may be 'mated that Mr. John Brown has never done such a largo trade in flowering plante as has rewarded his efforts this spring. There is a growing taste in nearly every farm house for planus and a geranium in blossom is becoming as common an object in our window as it is in Lower Canada, where the pooresi dwelling is beautifed by rich blossoms. streets just where it is necessary to stop this kind of a nuisance. Rönz to Passros.—On Monday evening, the 37th, a number of the A. O. U. W. went on a fraternal visit to their breathren in Preston. The Order is quite strong here, but the members do not forget the time when there were but a few and that few belonging to the Preston Lodge. So that it is not to be wondered that a warm fraternal feeling exists between the lodges; the Hespeler lodge for their paternal brethren, so to speak, and on the other hand the Preston lodge for their paternal readous work have accomplished so much in eo short a period of time. GETTING BETTER.—Mr. Walter Laing re-osived a letter from his daughter yester. day. Bhe is a captain of the Salvation Army in Quebec, and is one of those who were injured by the Army being mobbed in Quebec last week. The letter says that she and the other soldiers who were in-jured .by the stones and sticks being thrown at them are recovering. She re-marks that it was a miracle that some one was not killed, so thick and fast was the fusilade kept up. Part in the Foresters Demonstration there. This prevented the band from taking part in the Toronto jubilee, as the Morriston folks had engaged them first. ELOFEMENT IN LONDON.-James Greer, a shoemaker of London, whose wife left him because he was so disagreeable at home, let part of his house to James Grant, whice and child, Mrs. Gesant to do Greer's work for the rent. Saturday when Grant, who is a laborer, went to work, his wife eloped with Greer and sailed away for Buffalo. It is usual for the hero and heroine of an elonement to he hand. This annual pionic of the Congregation-al church was held yesterday on the grouns sof Mr. Zimmerman. Both old and young spent a very pleasant afternoor, and the usual social amusements were red to with a will. away for Bullaio. It is usual for the nero and heroine of an elopement to be band-some. In this case they are said to be both decidedly the reverse. Grant served through the Zulu campaign, and he says he will follow Greer and kill him as soon Many a young girl shuts herself out from society because her face is covered with pimples and blotches. All disfiguring humors are removed by purifying the blood with Ayer's Sareaparilla. This remedy is the safest and most reliable that can be used. as he can get enough of money. as ne can get enough of money. CAPT, CLARKE'S CLASS AT STRATFORD.—To-day Capt. Clarke received a cheque from Mr. David N. Hogg, Stratford, for \$25, as an acknowledgement of his services in giving the recent entertainment with his Highland Cadets and Calisthenio Classees in that oity. Mr. Hogg remarked in his letter that his expenses were very high, but that when everything was settled he expected to be able to send Mr. Clarke more money. The Captain, on receiving the amount mentioned, at once handed it over to the authorities of the Guelph THE Mayor has received for himself and other members of the corporation an in-vitation from Mr. J. Both off wheels passed over him from his shoulder diagonally across his ohest. Help was immediately at hand, but fastal injuries were done. Blood spurted profusely from his mouth and in five minutes he was dead. His body was conveyed to the town hall and was in-terred on Saturday in the cemetery here. Enough money was found in his hours to pay the funeral expenses. JURLER DAY. Tuesday last was one of the dullest days ever witnessed in Elora. The boys were away at camp, and the disconsolate girls and old folks either stayed at horme or sought consolation in visits to neighboring localities. Elors was as dead as a door mail, but will endeavor to make up for the depression by a rousing time on Dominion day. CRIGENT. Special attention is called to the fact that the Gnelph Crickst Club has secured a new ground in the Exhibition Park and that in future all their matches will be played on this ground. The opening match will be played on Dominion Day against the Listowel club, and it is hoped that there may be a good attendanco of citizens upon that occasion. There will be no charge for admission. The follow-ing will compose the Guelph team :--F. Harley Capt. A. Fitzgerald, B. R. McConkey, W. N. Husband, G. P. Simp-son, Dr. Lett, T. P. Webster, H. Guthrie, J. Guthrie, S. Saunders, G. Saunders, Mr. Lookwood, umpire.

by a rousing time on Dominion day. Hown Acars.-Johnny came marching home on Saturday last. The boys in green left camp at 8 a.m. and reached Elora about 7 pm., having been dragged around by Listowel and Palmerston to this point. The Guelph, Eramosa and Erin companies, leaving London at 5:30 were in the Royal City about 10 a.m. Some body stupidly blundered, but our follows patiently put up with the infliction and were in high spirits when they reach-ed their native village. The girls were out in crowds to receive them at the station, and the boys looked pleased as Punoh when they noticed this highly prized mark of appreciation.
