One evening this week an erstwhile supporter of the Flemming government said that while the Observer boasted of a fine new post office, dirty streets, and other things, it ought not overlook the fine trotting park. This, he said, was the river bridge. Almost every night he felt his bed shake as horses were trotted across and he wondered if it was anybody's business to prevent it. He understood a caretaker was being paid at the rate of \$80. per year, but he had never heard of a person being warned not to trot horses across the bridge. Others living near the bridge say that trotting horses across is a daily offence.

"We acknowledge the corn."

We've tried to sell other makes of fine shoes which carried more profit.

But we find the people want a makers' guarantee stamped on the sole with the name and fixed price.

Now "The Slater" is just that kind of a shoe and people have asked us why they should buy other shoes which they don't know when they might have a guaranteed, price controlled article like the "Slater Shoe" for the same or less money.

Because we couldn't answer that question satisfactorily we have put on a sale and will clear out of stock every other make of shoe we have from \$3.00 up at whatever price we can get for it.

This is to make more room for the shoe the people want—"The Slater Shoe"—stamped on sole with makers' name and price.

Tomorrow the sale of nameless shoes begins and this is how we'll sell them:

More zest in your tea-cup!
More smack in its delicious enjoyment!
At last, expensive study of flavor-blending has perfected a fullness, a richness, a smoothness of flavor that was once thought impossible.
Why it was thought impossible one sip of a cup of King Cole Tea will tell you. It is so much nicer, so far more satisfying in the grateful fullness of its flavor than any tea you ever tasted.
King Cole Tea is flavor-fuller.

YOU'LL LIKE THE FLAVOR.
