TECHNICAL EDUCATION

It is pleasing to note that the Provincial Government has appointed a committee to study and report upon technical education.

WINTER AHEAD

The shortage of wood and the high price of coal and provisions and all the other necessities of life forebode a miserable winter.

The kidnapping and imprisonment of Miss Superior Nina of the Pinchukoff (Pinsk) convent, by the Cossacks' Deputies, has caused a great deal of concern.

GOOD BEGINNING

The announcement of public ownership of the Canadian Northern is a step in the right direction.

WHISKEY BANNED

Prohibition of intoxicating beverages received a big lift upward and forward when President Wilson last week prohibited the manufacture of cognac in the United States.

It will be increasingly difficult for the liquor traffic to ever again rear its head in the United States, but, in view of the fact that the consumption of intoxicants in that country was much larger last year than it was the year before, extreme vigilance will long be needed to ensure the enforcement of Prohibition laws.

TAXATION AND WEALTH: TWO VIEWS

Boston Advertiser: The movement in the Senate toward a higher taxation of excess profits has behind it a large and growing sentiment among the people and is sure to make increasing headway.

In the taxation of wealth a main fact to be kept in mind is that the war debt will not be discharged this year nor next, but will weigh heavily for years to come.

THE WAR

During the past week the Allied all along the Belgian, French and Italian frontiers have held their own or gained a little.

Following their failure to capture the all-Russian conference at Moscow last month, the more conservative elements of the new Russian regime appear to have conspired to make commander-in-chief Korniloff dictator.

Only a few days ago many princes and other aristocrats were arrested for conspiring to restore the Czarist rule.
