NEW DEPARTURE IN POULTRY EXHIBIT

In connection with the Poultry Department of the St. John Exhibition still another innovation has just been made. Heretofore, no prizes have been issued for Capons, although every epicure knows the large esteem in which Philadelphia Capons are held. For some time the governments have been advocating caponising of birds before they are marketed and to popularize this movement the Exhibition is this year diverting a bronze medal, donated by the Canadian Poultry Review of Toronto, and offering it for the best Capon exhibited at the 1922 Exhibition.

THE POSTAGE STAMP

Thousands of postage stamps are weekly used throughout the Dominion of Canada, yet perhaps it never costs us a thought how these little messengers are serving us. For long ages they have been traversing through the country and have been used for our convenience. Not long ago the fad of collecting old stamps throughout the country brought the stamp into notoriety. That fad has passed away and perhaps the future historian of Canada will record the fact that a large collection of postage stamps were gathered for antiquarian purposes.

The postage stamp which has a history still continues to do service and never threatens to enter the list of strikers. May we not draw two or three lessons from these silent messengers that minister much to our convenience and are so helpful to us in our business transactions.

The tiny stamp takes the thousands of miles away and ensures that it will be safely delivered. You find it upon the envelope at the end of its journey. There is an object lesson on sticktiveness. Some people constantly vacillate, ever changing, not settled in opinions or anything else. Their course in life is marked by adhesion. Such people do not contribute much to the world's advancement or stability. Stick to your work, be interested in it and be constant plodders and prosperity will follow.

Then the postage stamp serves every body. The wealthy man puts a stamp upon a letter that carries it until delivered. The Indian or poor man mails his letter at the post office, it too goes on its errand and does as much for him as for the wealthy man.

Should not we be willing to enter a life service for all mankind? We may be willing and ready enough to serve the rich to even do obeisance to those who rule over us, and yet neglect to comply with Heaven's mandate to serve our fellow men. We should be willing to serve every body no matter what the position in life.

Then the postage stamp sacrifices itself that it may serve others. The P. O. official obliterated the stamp's life is gone. It cannot serve again. So we are to make sacrifices that we may serve. In the late war many sacrificed unto death. We are not always called upon thus to make sacrifices. But we can never properly serve without making sacrifices. And as we make sacrifices we dignify Christian character.

Wage Reductions On Railways Are Rescinded

In a telegram despatched August 15 to Hon. W. L. Mackenzie King, Prime Minister of Canada, over the signatures of the presidents of the Canadian National, Grand Trunk and Canadian Pacific railways, an undertaking is given to rescind the wage reduction on shippers on the Canadian railroads, effective since July 15 last and to revert to the rates of pay in force prior to that date. This understanding is made consequent on the Prime Minister's letter addressed to the railway heads asking them to adopt the view of the Federal Department of Justice that a wage reduction was contrary to law. The railway heads, while still affirming the position that their action in cutting wages is legal, agree to accept the ruling of the Department of Justice with the proviso that the companies' case before the Board of Conciliation now sitting here will not be prejudiced thereby.

PRESS COMMENT ON LONDON FAILURE

Europe was unable to rise to what might have been a great opportunity to put her feet on the road to recovery.

This is the consensus of the press comment regarding the failure of the London conference, but as to who was responsible for the failure depends upon whether one accepts the French or British viewpoint.

The pro-government editorials express the hope that France will take the counsel of reason and sobriety and not continue to act against her own best interests, while those of the opposition press, such as the Daily Mail, say the British people will not allow any administration to quarrel with their friend and ally for the benefit and satisfaction of the Germans.

A Concession To Home Investors

In offering to renew the five and a-half per cent. Canadian Government bonds maturing December 1st at the same rate of interest as is carried by the maturing bonds, and allowing a bonus of one month's interest, the Minister of Finance is making a material concession to the Canadian investor, as this rate is higher than was paid on the recent Canadian Loan in New York. The high class of the security, which is the very best that can be offered in Canada, and the liberal rate of interest should lead to large investment in these Dominion bonds. Attention is directed to the official advertisement giving details.

TIRED OF LIFE

According to official returns, suicides were an awful crop during 1921, in the United States. A remarkable feature of the report is the number of well-to-do splendidly educated people in important positions, who went out of life, by their own hands. Of this class, the numbers are given as follows:—In 1921:—86 doctors; 57 judges; 37 bank presidents; 21 clergymen of different denominations; 10 editors; 7 Mayors, and 7 members of legislatures. Terrible as this list is, it is only a small portion of the total number in the States, who thus grew "tired of life."
