PROOFS OF THE SUPERIOR QUALITY

AMERICAN WATCH

MADE AT
WALTHAM, MASS.

Referring to their advertisement in a previous
issue of this paper, the American Watch Company,
of Waltham, Mass., respectfully submit that their
Watches are cheaper, more accurate, less com-
plex, more durable, better adapted for general use,
and more easily kept in order and repaired than
any other watches in the market.

They are simpler in structure, and therefore
stronger, and less likely to be injured than the
majority of foreign watches. They are composed
of from 125 to 300 pieces, while in an old English
watch there are more than 700 parts.

How they run under the hardest trial watches
can have, is shown by the following letters:

PENN. RAILROAD COMPANY.

Office of the General Superintendent,
Altoona, Pa., 15th Dec., 1886.

GENTLEMEN.—The watches manufactured by
you have been in use on this railroad for several
years by our engineers, to whom we furnish
watches as part of our equipment. There are now
some 500 of them carried on our line, and we con-
sider them good and reliable time-keepers. In-
deed, I have great satisfaction in saying your
watches give us less trouble, and have worn and
do wear much longer without repairs than any
watches we have ever had in use on this road. As
you are aware, we formerly trusted to those of
English manufacture, of acknowledged good re-
putation; but as a class they never kept time ac-
curately, nor have they done as good service as
yours. In these statements I am sustained by
my predecessor, Mr. Lewis, whose experience ex-
tended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

NEW YORK CENTRAL RAILROAD.

Locomotive Department, West Division,
Eochester Dec. 24, 1886.

GENTLEMEN.—I have no hesitation in saying
that I believe the great majority of Locomotive
Engineers have found by experience that Wal-
tham Watches are the most satisfactory of any
for their use. They run with the greatest ac-
curacy and steadiness, notwithstanding the rough
riding of an engine, and as I have never known
one to wear out, they must be durable. I hope
to see the time when the American Watch Com-
pany's watches will be generally adopted by all
engineers and conductors. In my opinion
they greatly tend to promote regularity and
safety.

Yours respectfully,
CHAS. W. HIGGINS, G. Chief Engineer,
Brotherhood of Locomotive Engineers.

American Watch Co., Waltham, Mass.

WE now make five different grades of watches,

named respectively as follows:
Appleton, Tracy & Co., Waltham, Mass.
Waltham Watch Co., Waltham, Mass.
P. S. Bartlett, Waltham, Mass.
Wm. Ellery, Boston, Mass.
Home Watch Company, Boston, Mass.

All of these, with the exception of the Home
Watch Company, are warranted by the American
Watch Company to be of the best material, on the
most approved improved principle, and to possess
every requisite for a reliable time-keeper. Every
dealer selling these watches is provided with the
Company's printed card of guarantee, which
company accompany each watch sold, so that buyers
may feel sure that they are purchasing the genuine
article. There are numerous counterfeiters and im-
itations of our watches sold throughout the coun-
try, and we would caution purchasers to be on
their guard against imposition.

Any grades of Waltham Watches may be pur-
chased of watch dealers.
Testimonials can be obtained on application
from many persons in Canada who have worn the
watches with the greatest satisfaction.
