### AN OPEN LETTER ON THE UNINERSITY QUESTION ALBERTA NEEDS TWO UNIVERSITIES

a community by a modern institution of higher learning. The circle of influence of the university was some first flowing from such an institution are distributed over a wide area. But there is a limit to the area which is a limit to mossible for one university adequately to meet the needs of all sections. If Alberta had been made into two provinces (each of which would be nearly twice as large as the average American state) there would have been no question that each province as large as Alberta (265,000 square miles; Nevada, for which the corresponding figures are \$1,000 and \$10,700; and \$10,000 and \$10,700; and \$10,000; and \$10,000 and \$10,700; and \$10,000 and \$10,700; and \$10,000; and tween southern and northern Alberta tween southern and northern Alberta strikingly shown if we analyze the ttendance of the University of Torbinto. In the session of 1911-12, out of 1,106 students registered in university tollege, 440 had their homes in the city of Toronto itself. Out of 2,352 stulents in arts registered in all the col-

ortant services which a university enders in the cause of education are particularly effective to a community if, say, not more than a radius of 150 hiles. If there is no university within the an area, young men and women to the highest value to the short two laberts are two laberts are population will be a claimity of the highest value to the whole province in the highest value to the whole province in the southern Alberts gree-conferring institutions for some by refusing to recognize what private citizens and the city of Calgary have done for the cause of education; it when the Alberts institutions have cline to encourage and assist these public-spirited citizens in a work that is of the highest value to the whole whom an education would be invalu- million or two.
