and come to visit friends. Many lovers of sport have gone out with shooting materials to find out how much game they can frighten out of harm's way.

During the day services will be held

in the different churches, as advertised in another column. For those who seek pleasure there is an excellent variety to choose from, a list of which may be seen under "Amusements" on the first page of this issue.

TWO SMALL FIRES.

Elijah Owens and Mary McGinnis Rudely Disturbed by the Devouring Element.

The fire brigade were called out twice last night. The first run was in response to a telephone message stating that Sterling Bros.' shoe factory fessional men, in fact, anyone who atwas ablaze. The firemen found that the stove in the premises had been filled early in the evening with leather scraps by some of the employes, and dium is almost always a prestidigitaunder the impression that it contained no fire, they left the stove door open. The scraps smouldered until about 8:15, when the flames shot forth and alarm-

ea the passers-by. At 10:45 the second alarm was sounded from box 52, for a blaze in the old frame rookery at 202 Mount Pleasant street. One portion of it was occupied by Mary McGinnis, of police court fame, and the eastern half by Elijah the stove-pipes, which passed through all of those present, including the me a board partition and set the ceiling in a blaze, which soon shot through the roof. When the brigade arrived the fire was soon extinguished. Loss, about \$100. The building is owned, it is said, by two orphans, for whom Mr. Frank Love acts as agent. There was no fur-

The Peculiarities of the Word.

No Name on Earth So Famous -No Name More Widely Imitated.

No name on earth, perhaps, is so well known, more peculiarly constructed or more widely imitated than the word DODD. It possesses a peculiarity that makes it stand out prominently and fastens it in the memory. contains four letters, but only two letters of the alphabet. Everyone knows that the first kidney remedy ever patented or sold in pill form was named DODD'S. Their discovery startled the medical profession the world over, and revolutionized the treatment of kidney diseases.

No imitator has ever succeeded in constructing a name possessing the peculiarity of DODD, though they nearly all adopt names as similar as possible in sound and construction to this. Their foolishness prevents them realizing that attempts made to imitate increase the fame of Dodd's Kid-

Why is the name "Dodd's Kidney Pills" imitated? As well ask why are diamonds and gold imitated. Because diamonds are the most precious gems. gold the most precious metal. Dodd's Kidney Pills are imitated because they are the most valuable medicines the

world has ever known. No medicine was ever named kidney pills till years of medical research gave Dodd's Kidney Pills to the world. No medicine ever cured Bright's disease except Dodd's Kidney Pills. No other medicine has cured as many cases of Rheumatism. Diabetes, Heart Disease, Lumbago, Dropsy, Female Weakness and other kidney diseases as Dodd's Kidney Pills have. It is universally known that they have never failed to cure these diseases, hence they are so widely and shamelessly im-

He Exposes Fraudulent Mediums

His Sleight-of-Hand a Factor, But Some Phenomena Is Caused by Psychic Force.

Washington, Nov. 20 .- I was enternomena, ghost hunter and prestidigitateur. Could any student pursue a specialty more fascinating than his? ble works, "Hours With the Ghosts," and these I fired at him unmercifully

during our interview. First I should tell you something of of the realms of mystery. "When I was older, whereas the skill of conjurers a boy of about 12," said he, "my father grows with experience. took me to see the famous conjurer, The railways did their share of holi- Heller, now dead, and I straightway deday business, and hundreds have gone termined to become a prestidigitateur myself. Soon afterward a traveling a sleight-of-hand performer.

> WHY SCIENTISTS ARE FOOLED. "It is impossible for a man to detect the frauds of alleged spirit mediums unless he is a master of legerdemain. Scientists, clergymen, other prowith absolute failure, generally, or become converts. The successful meteur of unusual skill. Sleight-of-hand itself is now being investigated here and abroad by eminent psychologists, who are endeavoring to learn exactly how a conjurer can successfully fool

even the most learned mind. "Through sleight-of-hand I have been able to accomplish many 'materializations' on my own account during things which happened over the table powder." between us were supposed to be the work of spirits. I learned how the me- probably transmitted?" dium, by sleight-of-hand, could free his as had he, but my neighbors were un-

movements. HE EVEN FOOLED THE SPIRIT. "After I had done this the 'spirit control' was asked if all conditions were favorable, and responded by loud raps on the table. Thus, you see, He was working on the farm of Wm | my sleight-of-hand fooled even a spirit Thompson, two miles east of town, in in the fourth dimension of space. I the township of Woodhouse. The men imitated the medium, and soon the lawere engaged in loading hay. Mr. dies near me were excited by a spirit Marshall was attempting to bear down hand jabbing at them and chucking the binding pole, when it broke, let-ting him fall to the ground headfore-trumpet began to float above our heads and to give forth spirit voices. I seized this and found that it was elevated by the medium's hand. I threw it down seance was brought to a close.

on the table with a bang and soon the "But do you consider all so-called spirit 'manifestations' to be the result of sleight-of-hand?" I asked.

"Every phenomena such as materialization of spirit forms, slate-writing, rope-tying, spirit photography, etc., are his reply. He then related many interesting and sometimes amusing accounts of how he had entrapped practically every medium claiming such ven to be a fraud.

PHENOMENA NOT EXPLAINED. "Do you believe that all of the alleged phenomena by so-called spirit mediums are frauds, Mr. Evans?" I inquired, more emphatically. "I, do not," was his answer. "I will

say, however, that conjuring will account for the greater part of them say, seven-eighths." "But how about the remaining

eighth?" "Neither hallucination, as has been suggested, nor legerdemain will satisthe movements of heavy objects, without muscular contact, in the bright relight of day, when the witnesses them psychic force. Whatever it may be, it the dying. has no connection whatever with spirits of the dead. They have no hand in the matter. I absolutely and emphatically discredit the theory of spirit intervention. Such power seems to have been possessed by D. D. Home, the Napoleon of necromancy, who hobnobbed with kings, queens and people of noble blood. He was a grandson of the tenth Earl of Home. It was alleged that on certain occasions he would rise and float around in the air. I believe that the majority of his feats were purely the result of trickery, but there are a number of great scientific minds who

claimed that he possessed the 'psychic force' nevertheless. CAREFULLY STUDIED BY SCIENT-

ISTS. He was subjected to a careful study by Sir William Crookes, Fellow of the Royal Society, president of the Society for Psychical Research, and an eminent chemist, noted for the discovery of the Crookes tube, by which the X rays were discovered. The examination of Home was made by him in the plain light of day, and in the presence of a number of famous skeptics, who tes-tify that light articles became heavy and heavy articles became light at his will, whether he touched them or not. Crooks constructed several delicate in-

Thought may be set up atomic disturbances in the brain, and these may be carried throughout unknown paits of space to a receiving brain with some special affinity. The force tran-scends the ordinary law of the diffusion of forces in all directions, which states that they must diminish inversely as the square of the distance Unlike the rays of the sun or waves of sound which radiate equally in all directions and constantly grow less in intensity, the telepathic rays or waves appear to go like a bullet from a gin to one particular spot."

HIS MOST REMARKABLE EX-PERIENCE,

"What, Mr. Evans, is the most remarkable case of telepathy which you have ever observed?"

"I have made a number of expeciments in thought transference with several celebrated psychists. The most successful one was made with Miss frauds in so far as they are claimed to Maggie Gaul, of Baltimore. Three be the work of the ceparted dead," was years before a relative of mine had died with cancer of the throat. He was a retired army officer who had reddish hair and a reddish beard. He was tall and of military bearing. I powers with whom he had ever come in went to Miss Gaul with the circumcontact. As he explained every "phe- stances of his death fixed in my min l. nomenon" of the seance room I could She sat in an arm chair, saying, 'You appreciate how only a master of leger- wish messages from the dead-one modemain could accomplish such detec- ment; let me think." After passing tions. The details of these frauds, he her hand over her forehead and rerelated to me, would fill a volume-in- maining for a while in deep thought deed, they have filled one already. But she said: 'I see, standing behind you, the "phenomena," which Mr. Evans a tall, large man, with reddish hair attributes to jugglery, in my mind are and beard. He is in the uniform of of less importance than those which he an officer—I do not know whether of cannot account for thus. A ghost story the army or of the navy. He points loses its savor when the ghost is pro- to his thoat. Save he died from throat trouble. He looks at you and calls "Mary; how is Mary?" The dead man was a great friend of my mother, whose name is Mary. He was in the habit of asking me 'How is Mary?' whenever I saw him. I was not thinking of this prior to the seance-in fact I had almost forgotten it. I have had a number of such experiences, almost as convincing. A psychist can sometimes relate facts never in the possession ci the sitter. She might tell him that a friend was dying in a far-off country, the risk of filling a consumptive's under unexpected circumstances, when grave, when, by the timely use of the friend was unknown to her. Bickle's Anti-Consumptive Syrup the factorily account for them. Hundreds of trustworthy people testify to seeing fact might have already been avoided?
