170.....JOB DEPARTMENT

THIS DAY IN HISTORY.

October 4.

623—Edwin the Great, king of Northumbria,  
died at Hatfield.

1226—St. Francis, founder of the Franciscans,  
or Gray Friars, died at Assisi.

1626—Richard Cromwell, son and successor of  
Oliver, born at Huntington.

1743—Henry Carey, musician, author of "God  
Save the King," died in London.

1771—Battle of Germantown and defeat of Gen-  
eral Washington.

1812—General Jacob Brown defeated the Brit-  
ish at the battle of Chippewa.

1822—Richard Richard Hayes, nineteenth  
president, born in Delaware, O., died Jan.  
7, 1893.

1888—President Arthur of the Insolvent Traders'  
bank of Chicago died.

1892—The Austrians won in the ride between  
the Austrian and German capitals, the  
Austrian who came in ahead having been  
8 days 1 hour and 45 minutes in traversing  
the distance.

—Miss Finkle has got a new beau:  
He tells me his front name is Jean;  
And that into the  
To the wild, woolly West she will go.

When married they'll take a chateau,  
Just as twenty servants or so,  
Of whom folks who are  
Or who will be a scattering sheen.

—Mr. Wm. Gall, who has been spending  
a short holiday in Toronto, is about to re-  
sume his duties on the police force.

—Mr. Ed. Gardner, choir master of St.  
Matthew's Church, has left for England on a  
four months' trip for his health's sake.

—Farmer Sam Piper, of North street,  
had a foot badly mangled in the cylinder  
of a threshing machine. Only the heel  
escaped.

—Mr. Slingtope, the Sarnia G. T. R.  
city ticket agent, was in the city yesterday  
and visited the G. T. R. shops in the East  
End. He was shown over the works by  
the general superintendent, Mr. John Kerr.

—Mr. Richard Robinson, of Lambeth  
village, was killed by a horse yesterday  
and badly injured. In this connection it is  
an unfortunate circumstance that the mem-  
ber of Mr. Robinson's family are all away  
in Chicago.

—Secretary McElhannon, of the Board of  
Education, has received a letter written in  
a lady's handwriting and containing \$5.  
money had obtained a prize recently at the  
old Central School years ago, but that the  
\$5 would cover the value of the prize.

—As one of E. Leonard & Sons' Ball  
engines was being run on the power  
house of the new electric light company  
yesterday it was taken across  
the scales at Orchard's coal and wood yard.  
Unfortunately the engine was too heavy for  
(ten tons) was too much for the scales and  
the truck with its load smashed through  
the platform. It is probable that the  
weighing apparatus was totally ruined.

—The parcel of the Y. M. C. A. was well  
filled last night. Mrs. Holbrook Smith  
delivered a lecture on "The Home Side of  
Progress." Mrs. Smith's remarks were  
chiefly confined to the proper training of  
children, and the responsibility of parents  
in that respect. Owing to a severe cold  
under which she was suffering, Mrs. Smith  
Rigby occupied the chair.

—The "Court of Society," interpreted  
by Mr. John Stetson's admirable company,  
Tuesday. Wherever it has been presented  
the production has met with that same  
general praise which it was received  
Theater, Boston, a few weeks ago. The  
the production has been a most successful  
one, both from an artistic and financial  
point of view, to Mr. Stetson.

A Holiday for London Westerns.

At last night's meeting of the London  
West Council Reeve Platt was authorized  
to declare a public holiday on the day of the  
opening of the electric road in the village.  
Ratepayers, has arranged to offer prizes for  
competition among the school children.  
The latter prize was not yet set.  
Among the accounts passed was a balance  
sheet of \$154. Two hundred and  
total of \$370 for the repairs of the break-  
water at Collins' beach. Chairman  
Smith, of the Board of Works, reported a  
general expenditure for the month of \$101.  
The assessment roll was returned and the  
court of revision was set for the next  
regular meeting in November. All the  
members were present.

The T.H. Bell Rang.

Mr. J. W. Metherall, butcher, Dundas  
street east, was sitting at tea on Sunday  
night, when he was surprised to hear the  
ring of the bell attached to his till in the  
store. On going to the store he met a little
